

Wall Tiles

EN Wall Panels Tiles Series is the perfect solution for offices seeking enhanced acoustics while maintaining a sleek aesthetic. These tiles, designed in geometric repetitive patterns, seamlessly blend style, functionality, and eco-consciousness. Crafted from PET material they offer outstanding ability to reduce reverberation and minimize noise levels and commit to delivering a superior acoustic experience. The adaptability of PET thickness ensures a tailored fit to meet the unique demands of project's acoustic requirements.

Easy to install Wall Panels Tiles Series instantly transform any space into a visually captivating masterpiece. A diverse selection of patterns offers a creative freedom to craft an ambiance that mirrors your distinct style and preferences.

DE Wall Panels Tiles Series ist die perfekte Lösung für Büros, die eine verbesserte Akustik bei gleichzeitiger Beibehaltung einer eleganten Ästhetik wünschen. Diese in geometrischen, sich wiederholenden Mustern gestalteten Fliesen vereinen nahtlos Stil, Funktionalität und Umweltbewusstsein. Sie werden aus PET-Material hergestellt und bieten eine hervorragende Fähigkeit zur Reduzierung des Nachhalls und zur Minimierung des Geräuschpegels und verpflichten sich, ein hervorragendes akustisches Erlebnis zu bieten. Die Anpassungsfähigkeit der PET-Stärke gewährleistet eine maßgeschneiderte Passform, um die einzigartigen Anforderungen der akustischen Anforderungen des Projekts zu erfüllen.

Die einfach zu installierenden Wandpaneele der Tiles Series verwandeln jeden Raum in ein visuell fesselndes Meisterwerk. Eine vielfältige Auswahl an Mustern bietet kreative Freiheit, um ein Ambiente zu schaffen, das Ihren individuellen Stil und Ihre Vorlieben widerspiegelt.

Flexxica wool felt 5 mm

EN Flexxica wool felt color palette is high-quality 5 mm thick felt. Wool felt has many technical uses, including, among others, in acoustics. The natural properties of wool make this felt not only look designer but also absorb noise and sound perfectly.

DE Die Farbpalette von Flexxica Wollfilz ist hochwertiger 5 mm dicker Filz. Wollfilze haben viele technische Anwendungen, u. a. in der Akustik. Die natürlichen Eigenschaften der Wolle verleihen diesem Filz nicht nur ein Design-Look, sondern auch eine perfekte Dämpfung von Lärm und Geräuschen.

Flexxica felt 5 mm

EN Flexxica felt color palette is a wide range of flame-retardant design felts with a velour finish and high noise reduction properties. They are available in many colors, ideal for many decorative projects, including upholstery and interiors.

DE Die flexxica-Farbpalette für Filze ist eine große Auswahl an schwer entflammaren Designfilzen mit Velours-Finish und hohen Geräuschminderungseigenschaften. Sie sind in vielen Farben erhältlich, ideal für viele dekorative Projekte, einschließlich Polsterung und Innenausstattung.

Guidelines for cleaning and maintenance of materials used in flexxica luminaires.

To maintain the beautiful color and appearance of flexxica lighting fittings, we recommend gentle vacuuming with a soft tip, preferably weekly.

Stain removal – the golden rule

Remove the stain as soon as possible. Most stains can be removed with lukewarm water, possibly with the addition of a neutral detergent.

Merino wool felt

Wool is antistatic and does not attract dirt like other fabrics. Wool is also water-repellent, so the liquids slowly penetrate the fabric.
Cleaning: First, soak up as much liquid as possible with a white kitchen towel or cloth. If the stain has dried, remove as much as possible with a vacuum cleaner. Wipe carefully with a clean white cloth.

Upholstered material

Upholstery in flexxica luminaires is highly versatile and durable. The material is antistatic and fireproof, so stains are easily removed.
Cleaning: Do not wet the entire lampshade. Always use a clean white cotton cloth and only use small amounts of cleaning agent at a time.

EcoPET material

The ecoPET is made of 60% recycled PET bottles. It is straightforward to maintain, and stains can be removed easily and hassle-free.
Cleaning: Never rub hard to remove a stain. Always use a clean white cotton cloth with a bit of detergent.

Glass luminaires

Boya is made in a traditional blown-glass technology, therefore it requires special and delicate cleaning care.
Cleaning: Use a soft, lint-free microfiber or cotton cloth with distilled water (optimal) or mild glass cleaner or a solution of equal parts water and white vinegar. Wipe carefully with a clean white cloth.

WARNING!

Benzene, acetone, and similar solvent-based products may discolor the materials of the flexxica luminaires. Before use, apply a small amount of the product to an inconspicuous spot to ensure it doesn't cause any damage or discoloration.

Flexxica reserves the right to make modifications and improvements of a technical or aesthetic nature to the products at any time without notice. The reproduction (even partial) of this catalog, for any reason and with any means, is prohibited without the prior written permission of flexxica.

Please note that the actual appearance of flexxica’s felt and fabric lighting fixtures may vary from the images shown in the catalog. This is because each type of felt and fabric possesses its own distinct characteristics. This is not a disadvantage of the luminaire but an advantage – each product is unique and unrepeatable.

Keep in mind that the colors of PET, felts, and fabric may differ slightly from what you see in the catalog. For the most accurate representation, we recommend referring to our sample book.

Due to the production process of both felt and PET, there may be slight variations in material between different production batches. Additionally, please take into consideration that PET boards have distinct left and right sides, along with a specific fiber arrangement. This is particularly important to consider when installing larger structures, such as wall-mounted panels.
