

ULTRALIGHT

Slabs

ULTRALIGHT
Simply revolutionary

Cos'è Ultralight

Ultralight è la lastra in alluminio ultra-sottile in grado di trasformare il mondo dei rivestimenti grazie alla sua incomparabile leggerezza, al trasporto agevole e all'installazione rapida e semplice. Grazie alle tecnologie di stampa ad altissima risoluzione, garantisce inoltre una qualità grafica superiore e offre infinite possibilità di personalizzazione del design.

Effetti 3D a rilievo, superfici matte e lucide, realizzate con un'innovativa stampa digitale a freddo su lastre in alluminio ultralegere. Il risultato è un prodotto unico, dove l'esperienza grafica e artistica di Tecnografica si unisce a un design di prodotto che introduce nuove possibilità nel settore. Oltre all'estetica, queste lastre hanno un reale impatto sui costi e sull'efficienza in cantiere: leggere, resistenti, facili da installare e da trasportare. Sono ideali per superare le problematiche legate ai materiali più fragili e pesanti.

What is Ultralight?

Ultralight is the ultra-thin aluminum slab that can transform the world of wallcoverings with its unmatched lightness, effortless transportation, and quick and easy installation. Thanks to the very high-resolution printing technologies, it also guarantees superior graphic quality and endless design customization possibilities.

3D relief effects, matte and glossy surfaces, created using innovative cold-process digital printing on ultra-thin aluminum slabs. The result is a unique product, where Tecnografica's graphic and artistic expertise merges with product design that introduces new possibilities in the industry. Beyond aesthetics, these slabs make a real impact on construction costs and efficiency: lightweight, durable, easy to install and transport. They are ideal for overcoming issues related to heavier and more fragile materials.

ULTRALIGHT
super glossy

only 1.2 mm thick

Two sizes

All designs available

Three finishes

ULTRALIGHT

super glossy

- Mirror-like glossy finish that enhances the elegance of marble, onyx, and precious stones.
- Ideal for luxurious spaces, especially in the naval and hospitality sectors.
- Effortless installation due to the lightweight slabs, eliminating the need for extensive pre-work.

- Finitura lucida effetto specchio che esalta l'eleganza di marmi, onici e pietre preziose.
- Ideale per spazi lussuosi, in particolare nei settori navale e hospitality.
- Installazione facilitata grazie alla leggerezza delle lastre, senza necessità di grandi preparativi.

ULTRALIGHT

3D

- Three-dimensional surface that seamlessly integrates texture and graphics.
- Vivid colors and sharp details thanks to an extensive RGB color gamut.
- Ideal for realistic textures like concrete, wood, stone, and fabrics.
- Enhances surfaces with tactile details, perfect for interior design and decorative applications.

- Superficie tridimensionale che integra perfettamente texture e grafica.
- Colori vividi e dettagli nitidi grazie a un ampio gamut cromatico RGB.
- Ideale per texture realistiche come cemento, legno, pietra e tessuti.
- Esalta le superfici con dettagli tattili, perfetto per il design d'interni e applicazioni decorative.

ULTRALIGHT

matte

- Matte satin finish that reproduces the tactile elegance of marble and smooth stones.
- Exceptionally sharp details, perfect for reproducing a wide range of designs.
- Ideal for creating sophisticated and natural effects in various indoor environments.

- Finitura satinata opaca che riproduce l'eleganza tattile dei marmi e delle pietre lisce.
- Dettagli eccezionalmente nitidi, perfetti per riprodurre un'ampia gamma di design.
- Ideale per creare effetti sofisticati e naturali in vari ambienti interni.

Extremely Thin Thickness

With a thickness of around 1 mm, Ultralight offers unmatched lightness and flexibility, making it easy to handle and install in any project.

Reduced Ecological Impact

Production with no gas emissions.

Logistics and Installation

Reduced costs due to the product's light weight, facilitating truck transport within Europe and container shipping to markets like the United States.

Space Efficiency

Lightweight and thin, the product simplifies transportation and installation, eliminating the need for bulky packaging like A-Frames, allowing horizontal stacking in boxes with minimal space.

Ultra-High-Resolution Digital Printing

Images are reproduced with extreme clarity and quality, thanks to advanced digital printing technologies.

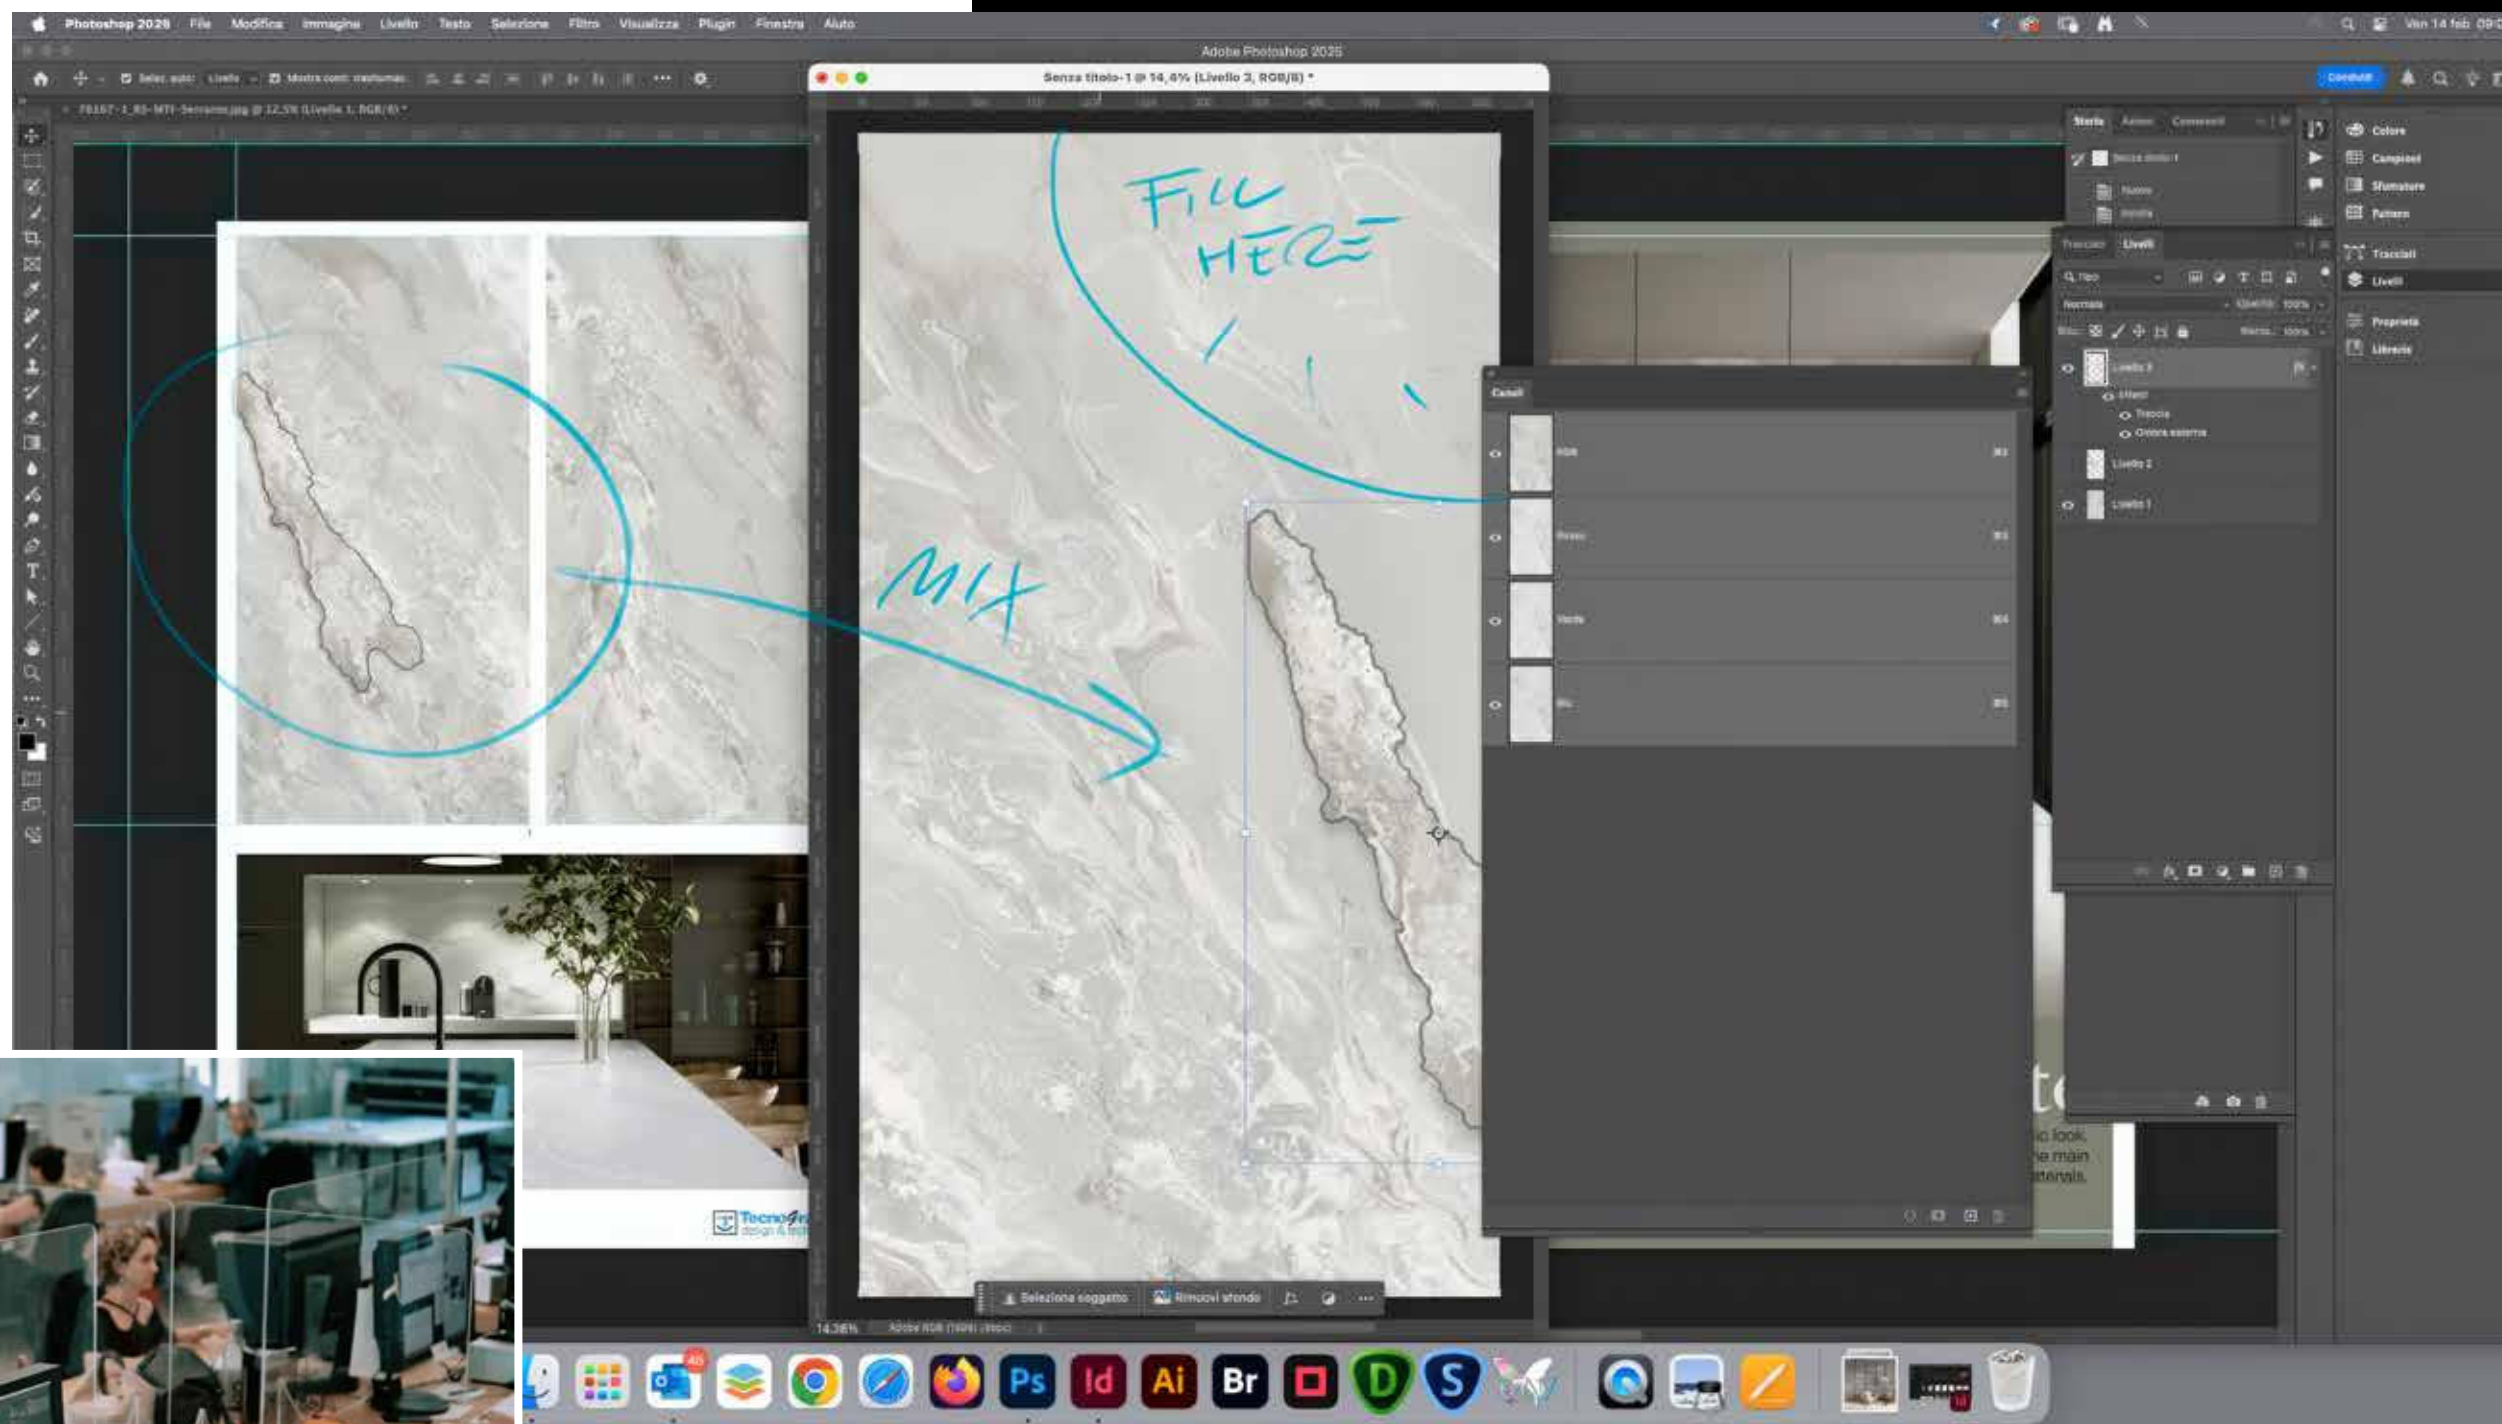

Durability and Resistance

Despite its lightness, Ultralight offers exceptional resistance to wear and weather conditions, making it perfect for both interior and exterior cladding applications.

Spessore Estremamente Ridotto: Con uno spessore di circa 1 mm, Ultralight garantisce una leggerezza e flessibilità uniche, rendendo il prodotto facile da maneggiare e installare in qualsiasi progetto. **Impatto Ecologico Ridotto:** Produzione senza emissioni di gas. **Logistica e Installazione:** Costi ridotti grazie alla leggerezza del prodotto, che facilita il trasporto su camion in Europa e il trasporto via container verso mercati come gli Stati Uniti. **Risparmio di spazio ed efficienza:** Leggero e sottile, il prodotto semplifica il trasporto e l'installazione, eliminando la necessità di imballaggi ingombranti come gli A-Frames, con disposizione orizzontale in scatole e minimo spazio. **Stampa Digitale ad Altissima Risoluzione:** Le immagini sono riprodotte con estrema chiarezza e qualità, grazie alle avanzate tecnologie di stampa digitale. **Durabilità e Resistenza:** Nonostante la sua leggerezza, Ultralight offre un'eccezionale resistenza all'usura e alle condizioni atmosferiche, rendendolo perfetto per applicazioni di rivestimento sia interne che esterne.

CASE STUDY

ULTRALIGHT INSTALLATION BY ARREDO JOLLY

The Arredo Jolly team, a Tecnografica partner, completes the installation of Ultralight slabs in a project underway at the Grand Hotel Bristol in Stresa (Verbania, Italy). Thanks to the lightness and extremely reduced thickness of the aluminum, the slabs are easily moved and cut on site to cover the bathroom areas. Watch the video and learn more!

Il team di Arredo Jolly, partner Tecnografica, completa l'installazione di lastre Ultralight in un progetto in fase di realizzazione presso il Grand Hotel Bristol a Stresa (VB). Grazie alla leggerezza e allo spessore ridotto dell'alluminio, le lastre vengono facilmente spostate e tagliate in loco per rivestire gli ambienti bagno. Guarda il video e scopri di più!

STONE EFFECT

EFFETTO PIETRA

The authenticity of nature
Solid, eternal, sculpted by time: the Stone Effect surfaces tell the story of the strength and authentic beauty of natural materials. Inspired by ancient rocks, with deep veining and textures rich in detail, these finishes evoke the solidity of the mountains and the timeless charm of worked stone. Perfect for environments with a strong character, from elegant minimalism to contemporary rustic style, they transform every space into a refuge of harmony and refinement.

L'autenticità della natura
Solide, eterne, scolpite dal tempo: le superfici ad Effetto Pietre raccontano la forza e la bellezza autentica della materia naturale. Ispirate a rocce millenarie, dalle venature profonde e dalle texture ricche di dettagli, queste finiture evocano la solidità della montagna e il fascino intramontabile della pietra lavorata. Perfette per ambienti dal carattere deciso, dal minimalismo elegante allo stile rustico contemporaneo, trasformano ogni spazio in un rifugio di armonia e raffinatezza

MARBLE EFFECT

EFFETTO MARMO

Timeless elegance

Marble has always been a symbol of refinement and prestige, capable of transforming any space into an exclusive environment. Its surfaces, crossed by unique veining and sophisticated plays of light, tell stories of timeless elegance and craftsmanship. The Marble Effect brings with it all the charm of natural stone, declined in shades and nuances that range from classic to contemporary. Perfect for refined interiors, from minimalist essentiality to the most scenographic luxury, it gives depth and brightness to walls and surfaces, creating atmospheres of great aesthetic and sensorial impact.

L'eleganza senza tempo

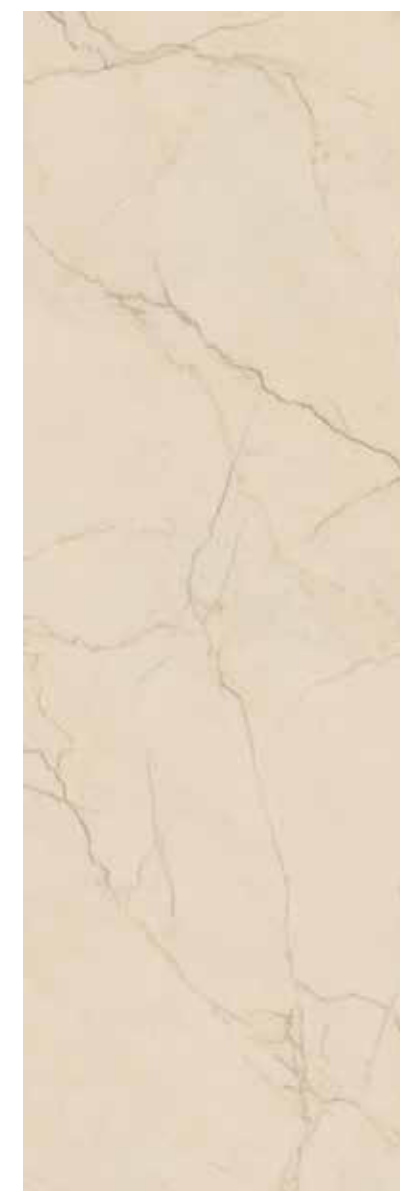

Il marmo è da sempre simbolo di raffinatezza e prestigio, capace di trasformare qualsiasi spazio in un ambiente esclusivo. Le sue superfici, attraversate da venature uniche e giochi di luce sofisticati, raccontano storie di eleganza e artigianalità senza tempo. L'Effetto Marmo porta con sé tutto il fascino della pietra naturale, declinato in tonalità e sfumature che spaziano dal classico al contemporaneo. Perfetto per interni ricercati, dall'essenzialità minimalista al lusso più scenografico, dona profondità e luminosità a pareti e superfici, creando atmosfere di grande impatto estetico e sensoriale.

CONCRETE EFFECT

EFFETTO CEMENTO

The essence of modernity

Versatile, essential, with a metropolitan charm: the Cement Effect embodies the spirit of contemporary architecture, where materiality and design blend in perfect balance. Its surfaces evoke the authenticity of poured concrete, with shades that vary from the most intense grey to the softest tones, creating environments with a strong and sophisticated character. Perfect for industrial spaces, modern lofts or minimalist interiors, this finish enhances the purity of the lines, giving a solid and structured appearance. A refined interpretation of the raw material, for environments with a strong aesthetic impact and a distinctive personality.

L'essenza della modernità

Versatile, essenziale, dal fascino metropolitano: l'Effetto Cemento incarna lo spirito dell'architettura contemporanea, dove matericità e design si fondono in perfetto equilibrio. Le sue superfici evocano l'autenticità del cemento colato, con sfumature che variano dal grigio più intenso alle tonalità più morbide, creando ambienti dal carattere deciso e sofisticato. Perfetto per spazi industriali, loft moderni o interni minimalisti, questa finitura esalta la purezza delle linee, donando un aspetto solido e strutturato. Un'interpretazione raffinata della materia grezza, per ambienti dal forte impatto estetico e dalla personalità distintiva.

WOOD EFFECT EFFETTO LEGNO

The warmth of nature

Wood tells stories of tradition, warmth and authenticity, transforming every environment into a welcoming and refined space. The Wood Effect reproduces with extraordinary fidelity the grain, shades and materiality of natural varieties, restoring the timeless charm of this living material. Suitable for contemporary and classic contexts, it fits perfectly into interiors with an essential, Nordic or sophisticated design, giving a feeling of harmony and well-being. A perfect balance between aesthetics and practicality, for those seeking the warmth of wood with the performance of an innovative surface.

Il calore della natura

Il legno racconta storie di tradizione, calore e autenticità, trasformando ogni ambiente in uno spazio accogliente e raffinato. L'Effetto Legno riproduce con straordinaria fedeltà le venature, le sfumature e la matericità delle varietà naturali, restituendo il fascino intramontabile di questa materia viva. Adatto a contesti contemporanei e classici, si inserisce perfettamente in interni dal design essenziale, nordico o sofisticato, donando una sensazione di armonia e benessere. Un equilibrio perfetto tra estetica e praticità, per chi cerca il calore del legno con le performance di una superficie innovativa.

METAL EFFECT

EFFETTO LAMIERA

The industrial soul of style

Robust, time-worn, and full of character: the Metal Effect is a tribute to the raw beauty of oxidized metals, the shifting reflections of steel, and surfaces shaped by time. Each panel tells a story of workshops, urban lofts, and contemporary architecture, where industrial aesthetics blend with elegance. Perfect for modern spaces, whether minimalist in design or with a metropolitan spirit, this finish transforms walls and surfaces into true material masterpieces, playing with light and shadow for a striking yet refined visual impact.

L'anima industriale dello stile

Robusta, vissuta, carica di carattere: l'Effetto Lamiera è un omaggio alla bellezza grezza dei metalli ossidati, ai riflessi cangianti dell'acciaio e alle superfici plasmate dal tempo. Ogni lastra racconta una storia di officine, loft urbani e architetture contemporanee, dove l'estetica industriale si fonde con l'eleganza. Perfetta per ambienti moderni, dal design minimalista o dallo spirito metropolitano, questa finitura trasforma pareti e superfici in vere opere materiche, giocando con luci e ombre per un impatto visivo potente e raffinato.

FABRIC EFFECT

EFFETTO TESSUTO

The charm of textures

The Fabric Effect brings the delicacy and warmth of textile textures to surfaces, transforming walls and furnishings into refined and welcoming elements. The subtle textures, inspired by natural yarns and fine fabrics, give a touch of visual and material softness, perfect for elegant and harmonious environments. This finish fits naturally into contemporary and classic contexts, giving depth and movement without weighing down the space. Ideal for those seeking to recreate an enveloping atmosphere, capable of combining aesthetics and sensoriality.

Il fascino delle trame

L'Effetto Tessuto porta sulle superfici la delicatezza e il calore delle trame tessili, trasformando pareti e arredi in elementi raffinati e accoglienti. Le texture sottili, ispirate ai filati naturali e ai tessuti pregiati, conferiscono un tocco di morbidezza visiva e materica, perfetto per ambienti eleganti e armoniosi. Questa finitura si inserisce con naturalezza in contesti contemporanei e classici, donando profondità e movimento senza appesantire lo spazio. Ideale per chi cerca di ricreare un'atmosfera avvolgente, capace di combinare estetica e sensorialità.

MICROTEXTURES

MICROTEXTURE

Refinement in details

The Microtexture Effect enhances the materiality with subtly worked surfaces, capable of giving depth and refinement to every space. The textures imperceptible at first glance, but perceptible to the touch, add a level of sophisticated elegance, creating ever new games of perception. Perfect for modern and refined interiors, this finish adapts to multiple contexts, from contemporary minimalism to warmer and more enveloping atmospheres. A discreet but distinctive touch, designed for those who love design in its most refined details.

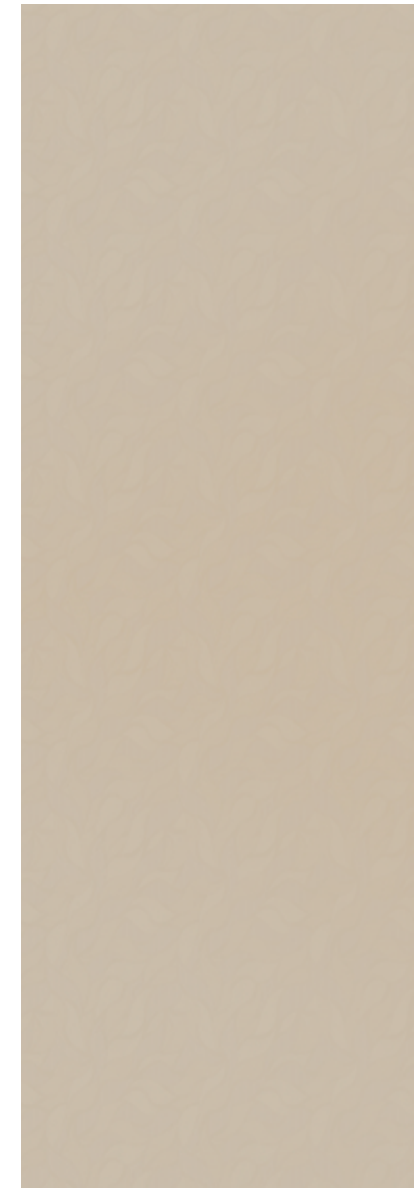

Raffinatezza nei dettagli

L'Effetto Microtexture esalta la matericità con superfici sottilmente lavorate, capaci di donare profondità e raffinatezza a ogni spazio. Le texture impercettibili al primo sguardo, ma percepibili al tatto, aggiungono un livello di sofisticata eleganza, creando giochi di percezione sempre nuovi. Perfetta per interni moderni e ricercati, questa finitura si adatta a molteplici contesti, dal minimalismo contemporaneo alle atmosfere più calde e avvolgenti. Un tocco discreto ma distintivo, pensato per chi ama il design nei suoi dettagli più raffinati.

RESIN EFFECT

EFFETTO RESINA

Fluidity and contemporary style

The Resin Effect stands out for its fluid and contemporary aesthetic, capable of giving spaces a homogeneous and refined appearance. The smooth and silky surfaces create a sense of spaciousness and lightness, making this effect perfect for modern and minimalist interiors. With its soft shades and delicate texture, it adapts naturally to any environment, enhancing its depth without weighing down the style. A sophisticated and versatile solution, designed for those who want continuous surfaces with a strong visual impact.

Fluidità e stile contemporaneo

L'Effetto Resina si distingue per la sua estetica fluida e contemporanea, capace di dare agli spazi un aspetto omogeneo e raffinato. Le superfici lisce e setose creano un senso di ampiezza e leggerezza, rendendo questo effetto perfetto per interni moderni e minimalisti. Con le sue tonalità morbide e la sua texture delicata, si adatta con naturalezza a ogni ambiente, valorizzandone la profondità senza appesantire lo stile. Una soluzione sofisticata e versatile, pensata per chi desidera superfici continue e dal forte impatto visivo.

PRECIOUS STONES

PIETRE PREZIOSE

The beauty of transformation

The result of age-old processes, precious stones enclose the history of the Earth in every shade, veining and reflection of light. The Precious Stone Effect captures the essence of these extraordinary materials, bringing the elegance and depth of the rarest minerals to surfaces. The luminous textures and vibrant shades evoke the power of nature in constant evolution, transforming walls and furnishings into unique and sophisticated elements. Perfect for exclusive and scenographic environments, this finish gives character and preciousness to spaces, making them evocative and inimitable.

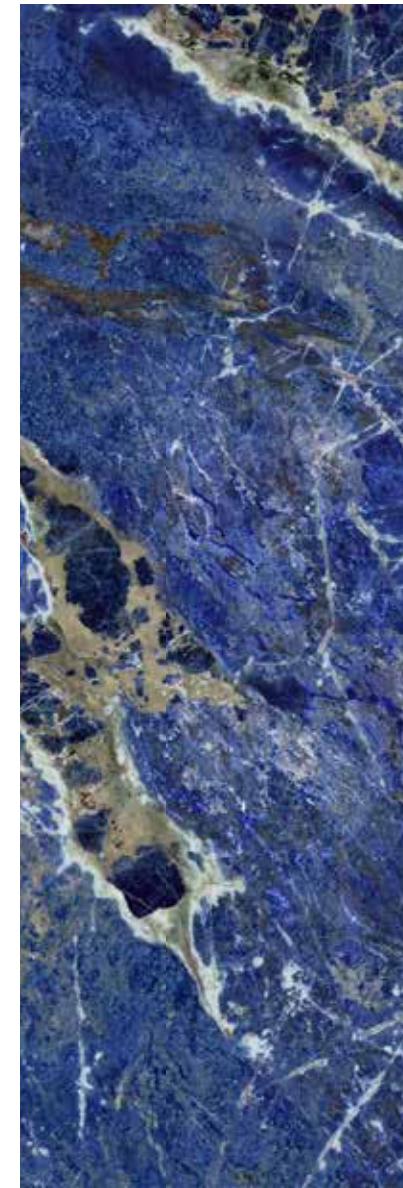

La bellezza della trasformazione

Frutto di processi millenari, le pietre preziose racchiudono la storia della Terra in ogni sfumatura, venatura e riflesso di luce. L'Effetto Pietre Preziose cattura l'essenza di questi materiali straordinari, portando sulle superfici l'eleganza e la profondità dei minerali più rari. Le texture luminose e le tonalità vibranti evocano la potenza della natura in costante evoluzione, trasformando pareti e arredi in elementi unici e sofisticati. Perfetta per ambienti esclusivi e scenografici, questa finitura dona carattere e preziosità agli spazi, rendendoli suggestivi e inimitabili.

TECHNICAL FEATURES

ULTRALIGHT 3D TECHNICAL DATA SHEET

ULTRALIGHT 3D - SCHEDA TECNICA

<i>Material / Materiale</i>	<i>Digitally embossed aluminum with a matte acrylic finish.</i> Alluminio gofrato digitalmente con finitura acrilica opaca.
<i>Available formats / Formati disponibili</i>	120x280 cm 99x297.4 cm
<i>Thickness / Spessore</i>	1.2 mm, tolerance +/-0.2 mm
<i>Weight / Peso</i>	3.5 kg/m ²
<i>Dimensional tolerance / Tolleranza dimensionale</i>	(+/-) 1.5 mm
<i>Orthogonality tolerance / Tolleranza ortogonalità</i>	(+/-) 2 mm
<i>Surface hardness according to the MOHS scale</i> Durezza superficiale, in accordo con la Scala MOHS	2
<i>Abrasion resistance according to UNI EN ISO 10545-7:2000</i> Resistenza all'abrasione, in accordo con UNI EN ISO 10545-7:2000	PEI 4
<i>Chemical resistance according to UNI EN ISO 10545-13:2017</i> Resistenza chimica secondo UNI EN ISO 10545-13:2017	Class A/B Classe A/B
<i>Operating temperature</i> Temperatura di esercizio	-15°C / +70°C
<i>Linear thermal expansion coefficient</i> Coefficiente di dilatazione termica lineare	2.3 x 10 ⁻⁵ (°C ⁻¹)
<i>Fully recyclable product</i> Prodotto interamente riciclabile	<i>Product disposal code: CER 20 01 40 (metal)</i> Cod. smaltimento prodotto: CER 20 01 40 (metallo)
<i>Notes</i> Note	<i>Patent application filed</i> Domanda di brevetto depositata

ULTRALIGHT 3D MAIN PRODUCT FEATURES

CARATTERISTICHE PRINCIPALI DEL PRODOTTO

<ul style="list-style-type: none"> • Three-dimensional surface that seamlessly integrates texture and graphics. <ul style="list-style-type: none"> • Vivid colors and sharp details thanks to a wide RGB color gamut. • Ideal for realistic textures such as concrete, wood, stone, and fabrics. • Enhances surfaces with tactile details, perfect for interior design and decorative applications. • Extremely Thin Thickness: With a thickness of about 1.2 mm, Ultralight guarantees unique lightness and flexibility, making it easy to handle and install in any project. <ul style="list-style-type: none"> • Reduced Environmental Impact: Produced without gas emissions. • Logistics and Installation: Reduced costs due to the product's lightness, facilitating truck transport within Europe and container transport to markets such as the United States. • Space-saving and efficiency: Lightweight and thin, the product simplifies transport and installation, eliminating the need for bulky packaging like A-frames, with flat crates and minimal space requirements. • High-Resolution Digital Printing: Images are reproduced with extreme clarity and quality, thanks to advanced digital printing technologies.
<ul style="list-style-type: none"> • Superficie tridimensionale che integra perfettamente texture e grafica. • Colori vividi e dettagli nitidi grazie a un'ampia gamma di colori RGB. • Ideale per texture realistiche come cemento, legno, pietra e tessuti. • Esalta le superfici con dettagli tattili, perfetto per applicazioni decorative e di interior design. • Spessore estremamente sottile: con uno spessore di circa 1,2 mm, Ultralight garantisce leggerezza e flessibilità uniche, rendendolo facile da maneggiare e installare in qualsiasi progetto. <ul style="list-style-type: none"> • Impatto ambientale ridotto: prodotto senza emissioni di gas. • Logistica e installazione: costi ridotti grazie alla leggerezza del prodotto, che facilita il trasporto su camion in Europa e il trasporto in container verso mercati come gli Stati Uniti. <ul style="list-style-type: none"> • Risparmio di spazio ed efficienza: leggero e sottile, il prodotto semplifica il trasporto e l'installazione, eliminando la necessità di imballaggi ingombranti come i telai ad A, con casse piatte e requisiti di spazio minimi. • Stampa digitale ad alta risoluzione: le immagini vengono riprodotte con estrema chiarezza e qualità, grazie alle avanzate tecnologie di stampa digitale.

Notice: colour samples printed on this catalogue may not be an exact product match. Tecnografica S.p.A. explicitly disclaims any liability resulting from product selections that rely solely on the colour samples provided herein.

In the decorative panels production, it may occur some slight tone discrepancies between one production lot and another one, or/and between the printing over different supports.

Nota: I colori dei prodotti rappresentati in questo catalogo sono quanto più possibili vicini alla realtà, nei limiti consentiti dalla stampa. Quindi sono da considerare puramente indicativi e non vincolanti.

Nella produzione dei pannelli decorativi si possono verificare delle leggere discordanze di tono tra un lotto di produzione e l'altro e/o tra la stampa su diversi supporti.
