

# Ko je rekao da užitak nije funkcionalan?

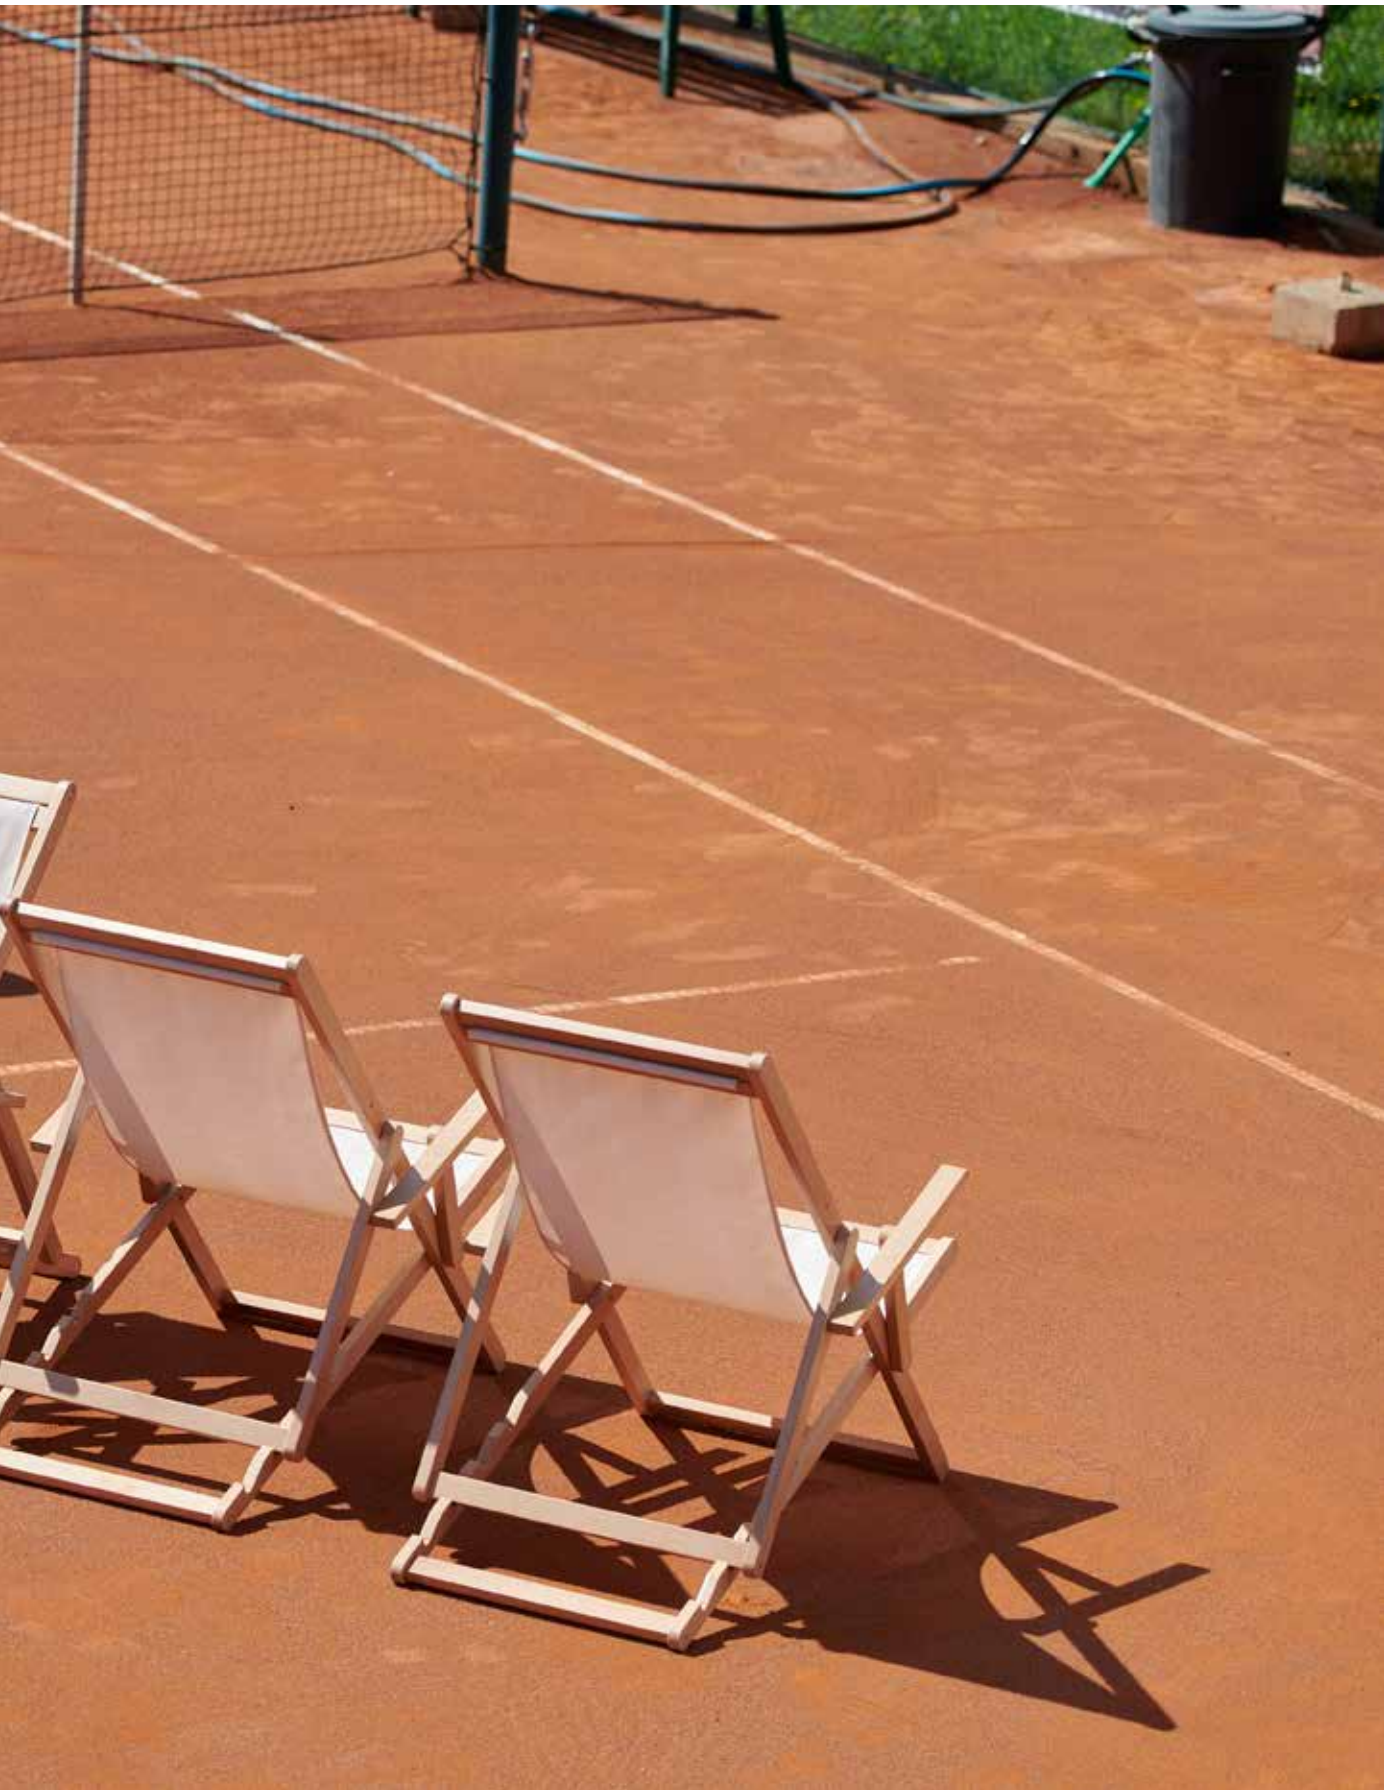

\_Who ever said pleasure wasn't functional?

\_Charles Ray Eames

Doding je firma koja postoji na tržištu već dvadeset godina i sa svojim kreativnim timom projektuje i realizuje vaše prostore za život i rad. Težeći konstantnom napretku i širem asortimanu za naše klijente oformili smo ogranak koji se bavi dizajnom i proizvodnjom plažnog i baštenskog namještaja - Doding Outdoor. Imajući u vidu savremenog čovjeka ova kolekcija je stvorena za uživanje i odmor. Našim nesvakidašnjim dizajnom određenih kolekcija iz ovog asortimana pomjeramo granice plažnog i baštenskog namještaja omogućavajući nesvakidašnju atmosferu atraktivnim lokacijama, hotelima ili Vašem domu.

For the last twenty years Doding is known on the market as a company whose team designs and fabricates your living and working environment. Searching for constant improvement while expanding our product selection, we formed a branch that designs and produces outdoor furniture - Doding Outdoor. Having in mind a present-day man and his lifestyle, we created a collection that embodies relaxation and enjoyment. The unusual design of several collections challenges the contemporary outdoor furniture and their combinations provide extraordinary atmosphere for amazing locations, hotels or your home.

## SVAKI KOMAD DODING NAMJEŠTAJA JE PAŽLJIVO IZRAĐEN.

DODING OUTDOOR SPRING / SUMMER 2019

### EVERY DODING PIECE IS PRODUCED WITH CARE.

\_Firma DODING sa svojim kreativnim timom već dvadeset godina projektuje i realizuje vaše prostore za život i rad. Moderni i klasični enterijeri osmišljeni u projektima arhitekata iz zemlje i inostranstva, realizuju se na najbolji mogući način uz primjenu savremenih materijala, dezena struktura i boja.

Vođeni razumjevanjem kulture i novim tehnologijama naši projektanti dizajniraju i stvaraju enterijere, pružajući jedinstven doživljaj prostora, koji na različite načine zadovoljavaju potrebe svojih klijenata, investitora i partnera.

Proizvodnju namještaja po mjeri od pločastog medijapana i drveta započeli smo 1998. godine. Pored rada sa individualnim klijentima i opremanja privatnih objekata, Doding proizvodnja je danas opremljena i osposobljena za rad na velikim projektima kao sto su hoteli, stambeni kompleksi i poslovni prostori.

Naš tim čini 90 zaposlenih, u oblastima projektovanja, prodaje, tehnologije, proizvodnje, marketinga i finansija. Pored dva pogona za proizvodnju DODING u svom sastavu ima i izložbeni salon u City Kvartu u Podgorici, gdje se mogu sagledati sve projektantske i proizvodne mogućnosti firme, kroz prezentovani enterijer i namještaj. 1999. godine u sklopu kompanije osnovana je i firma STILLES u Sarajevu (BiH Federacija) koja danas zapošljava 47 ljudi, sa sopstvenim proizvodnim pogonom u Sarajevu. 2010. godine osnovali smo sektor DODING DRVNI CENTAR koji nudi repromaterijal i usluge i drugim proizvođačima namještaja.

Sagledavajući svaki prostor kao jedinstven, naš kreativni tim unosi svoje znanje i iskustvo, maštu

i inovativnost u svaki enterijer, držeći se osnovne ideje i projekta od početka do konačne realizacije. Zahvaljujući svom dugogodišnjem iskustvu povjerenje da uredi njihove prostore povjerili su nam pored stotine naših građana i velike kompanije i renomirane firme kao sto su: "Hotel Chedi", "Lustica Bay", "Portomontengro", "Porto Novi", "Hotel Centre Ville", "Ruža Vjetрова", "Hotel Fontana", "Hotel Ville Oliva", "Hard Rock Cafe", "Urban Bistro 21", "Lounge Bar Elite", "Ckb- Otp banka", "Lovcen Banka", "Hipotekarna Banka", "Telenor", "Telemont" i mnogi drugi.

DODING OUTDOOR, kao najsvježija grana firme, uzima u obzir savremenog čovjeka i njegov način života kreirajući kolekciju koja predstavlja oličenje relaksacije i odmora. Jednostavnim i atraktivnim dizajnom ove kolekcije su namijenjene za nesvakidašnju atmosferu u hotelima, privatnim baštama i drugim prostorima za odmor i relaksaciju. U osnovi kao firma za projektovanje i proizvodnju namještaja po mjeri, potpuno smo osposobljeni da dizajniramo i izvedemo Vaše eksterijere, bilo da se radi o privatnom mjestu za odmor, plaži ili hotelu. Pored komada baštenskog namještaja serijske proizvodnje, DODING OUTDOOR nudi dizajn i proizvodnju pergola i paviljona za spoljne prostore po Vašoj mjeri.

Zadovoljan klijent je uvijek bio naš najveći uspjeh. Tako i DODING OUTDOOR ima u cilju da razumije i zadovolji potrebe svojih korisnika. Povezujući funkcionalnost, eleganciju, ravnotežu boja i formi, uz primjenu kvalitetnih i savremenih materijala, sa nama se uvijek dobija kvalitet više, čak i u hedonizmu.

\_For twenty years DODING and its creative team have been designing and furnishing your living and working environment. Modern and classical interiors designed by domestic and international architects are realized in the best possible way through the use of contemporary materials, patterns, structures and colors.

Driven by the understanding of culture and new technologies, our designers offer a unique spatial experience that, in different ways, meets the needs of our clients, investors and partners. In 1998 we started the production of furniture by measure, made of laminated materials, particleboard and wood. Besides our work with individual private clients, Doding team and our plant are completely capable for handling larger projects like hotels, residential complexes and business premises.

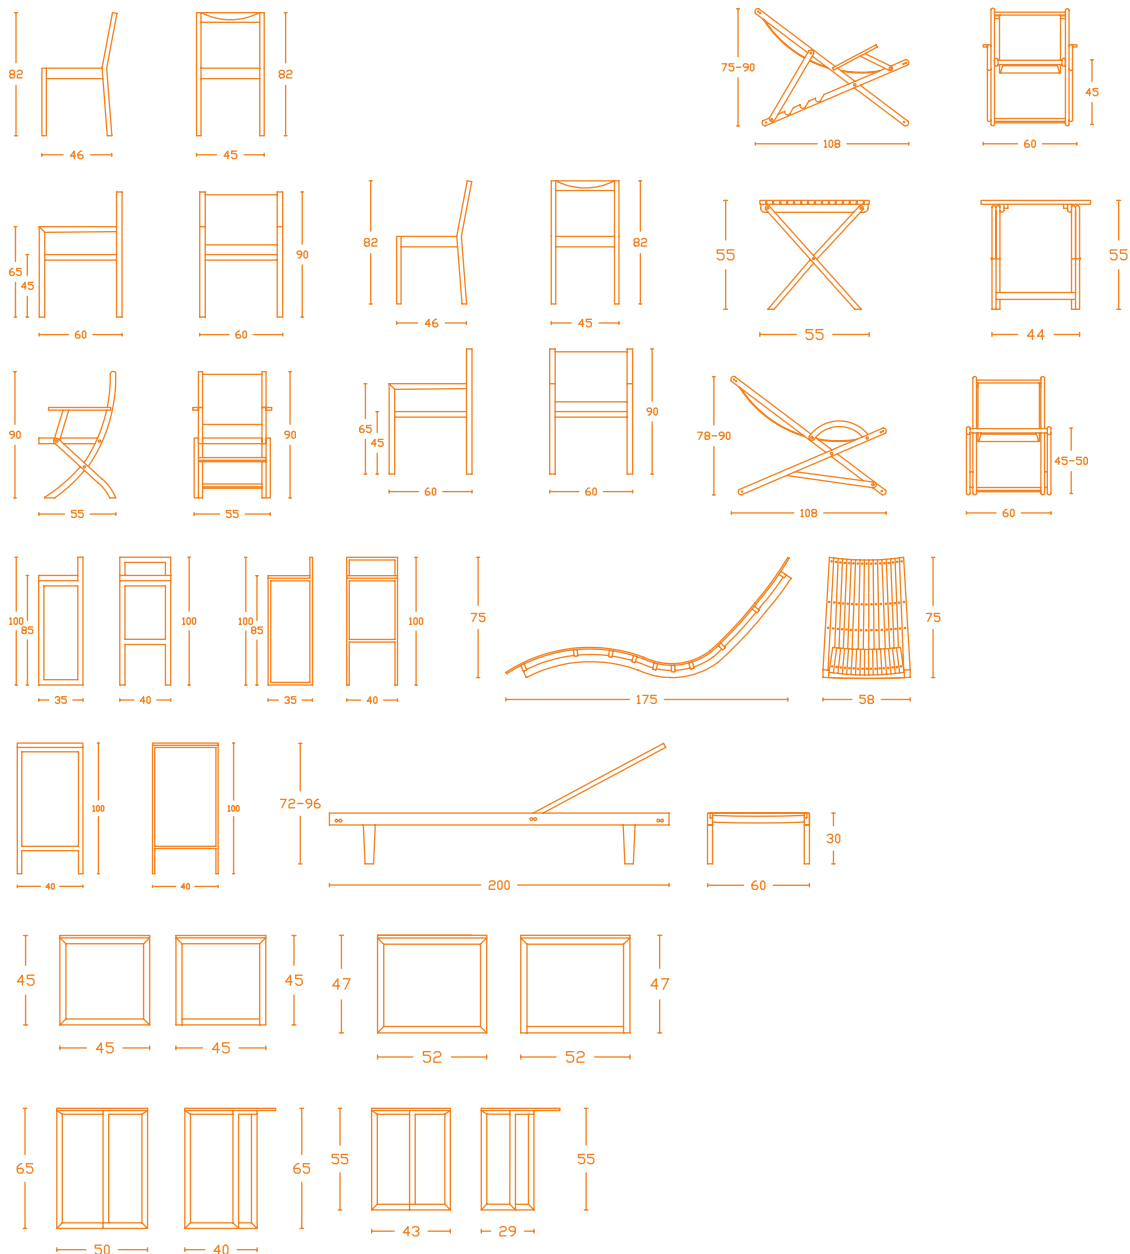

Our team consists of 90 experts in fields of design, furniture manufacturing, sales, technology, production, marketing and finances. In addition to two production plants, DODING has a showroom in City Kwart, Podgorica, where all design and production capacities are presented through interior design and furniture. In 1999 we formed a sister company STILLES in Sarajevo, Bosnia and Herzegovina, which employs 47 people with their own plant located in Sarajevo. In 2010 we formed DODING DRVNI CENTAR, a branch of the company that sells production materials and offers services to other furniture manufacturers.

With an approach that every environment is unique, our creative team engage their knowledge, experience, imagination and innovation in every interior without moving away from the original concept from the beginning to the final realization. Those qualities enabled us to design homes for an extensive number of our citizens as well as be present in the major investments in Montenegro such as: "Hotel Chedi", "Lustica Bay", "Portomontenegro", "Porto Novi", "Hotel Centre

Ville", "Ruza Vjetrova", "Hotel Fontana", "Hotel Ville Olive", and work with big and renown companies such as: "Hard-Rock Café", "Urban Bistro 21", "Lounge Bar Elite", "Ckb-Otp Banka", "Lovcen Banka", "Hipotekarna Banka", "Telenor", "Telemont".

DODING OUTDOOR, as the most recent branch of the company, considers needs of a present-day man and his lifestyle, creating a collection that embodies relaxation and enjoyment. With their simplistic and attractive design these collections are designed for extraordinary atmospheres in private gardens, hotels and other attractive locations. Founded as a company specialized in interior design and production of furniture by measure, we are completely capable of designing and furnishing your outdoor spaces. Besides the serial production models, DODING OUTDOOR offers design and manufacturing of pergolas and pavilions that meet the needs of your outdoor space.

A satisfied client has always been our greatest success. Therefore, DODING OUTDOOR also stems to continue to understand and please the client's needs. Combining function, elegance, balance of color and form, with the application of high-quality modern materials we always provide for a high-quality product, even when it comes to hedonism.
