# Every space should have something intriguing and thus precious.

Pipes Tube is meant to enhance the space. As a strong decorative element, it draws attention. Still, its form is simple enough to blend in with the surroundings.

A variety of sizes and colours allow you to be creative in compositions and to add a personal touch to every space.

# Timeless design

Clean lines and carefully chosen colours  
create the best timeless highlights in space.  
There are various lengths and diameters  
available.

# Black or white funnel?

You can choose a white or black funnel colour on the Pipes Tube S 100 version. Black funnel will reduce the glare.

# Cluster

You should go for Pipes Cluster S, when you need a decorative element in the space. When you need something that makes people say 'Wow, that looks nice!'.

space

# Light control

Wireless lighting control system Casambi offers a big variety of possibilities for a user to interact with the lighting. The app for smartphones and tablets is the most elaborated user interface. Besides the app, traditional wall switches, push buttons, Casambi's own scene controllers and many other control points can be used.

# Made in Europe

Our products are carefully planned, manufactured and tested in order to ensure reliable operation throughout their life span, to limit the environmental impact as little as possible and to co-create pleasant living conditions. Quality is our highest priority and way of life.

High standards and reliable quality of our products were certified by numerous organisations.
