# Soft magic of a morning light

Unlike other luminaires which have their light source in the middle of the luminaire, Dawn hides it under the edge and only reveals the soft uniform light, comparable to the morning dawn. Dawn boasts with elegant details such as the frame, which is done from a single piece, delicate edge design and 100% clean interior, which means there are no screws and suspensions visible in the interior of the luminaire.

It's a luminaire that definitely gives attention to details by turning a power cable to an eye-catching feature and it's simply a perfect example of how to transform a typical decorative product in a unique lighting experience.

**DESIGN:**

Lorenzo Truant

# Product range

---

## DIMENSION

600, 800, 1000 mm

## LIGHT OUTPUT

1700 - 3000 lm

## LED COLOUR

927, 930, 935, 940

## DRIVER

Casambi, DALI, FO, Remote

## Made from a single piece

One of the most important features of its design is also the fact that Dawn's body is made out of a single piece of material which gives it a sophisticated finishing touch.

1950 mm

2100 mm

## **With its head in the air and its feet on the ground**

On the floor. You can use both versions, the suspended and the floor, separately or combined.

# 100% clean interior

As the light source is completely hidden under the edge, the interior of the luminaire is 100 % clean, with absolutely no screws or suspensions.

# Diffused light without a diffuser

Dawn has no diffuser. But anyway reveals the soft uniform diffused and reflected light.

It also gets as close to the natural spectrum of light as possible creating a beautiful diffused light with no hard shadows and contrasts.

# Attention to every detail

Dawn has the ability to turn common features as suspension cable and power connection to something truly aesthetic. This luminaire has only one suspension point and power cable thoughtfully placed in the product. Moreover, it boasts with elegant details such as the special production of the frame due to its delicate edge design and 100% clean interior, which means there are no screws and suspensions in the interior of the luminaire.

Light at its  
softest

aesthetic

# Light control

Wireless lighting control system Casambi offers a big variety of possibilities for a user to interact with the lighting. The app for smartphones and tablets is the most elaborated user interface. Besides the app, traditional wall switches, push buttons, Casambi's own scene controllers and many other control points can be used.

# Made in Europe

Our products are carefully planned, manufactured and tested in order to ensure reliable operation throughout their life span, to limit the environmental impact as little as possible and to co-create pleasant living conditions. Quality is our highest priority and way of life.

High standards and reliable quality of our products were certified by numerous organisations.
