Everybody loves Biba.

Biba is little, but like all little things it can make a big difference. Individual or in a matching composition, sophistication is the look you are getting. Combine shapes and colours in an endless fusion of possibilities if you're planning a restaurant, a hotel lobby, a bar, a retail or even your home dining room, bedroom or bathroom and let it suit your taste. Get to know it, hold it and you will love it, too.

Finest materials

Biba is made of one piece aluminum. It's heavy weight provides straight tension of the cable and works as a cooling system.

Ageless shapes

Clean lines and carefully chosen shapes will flatter your space.

Exciting colours

Biba is so beautiful in all available colours that everybody has the same problem: which one to choose. Some prefer it black or white to blend it in discretely. If you want to have an eye-catching element in the space, then dare to choose the more intensive ones.

Carefully designed

Seamless transition between the power cable and the luminaire.

Create your pattern

Combining shapes and colors in an endless fusion of possibilities will lead you from simple and sophisticated, to a luminaire that lets your ideas fly.

Cluster installation

Choose a cluster ceiling cup when you want to create a group of Bibas closely together.

Cluster with suspenders

A cluster ceiling cup combined with decentralizers allows you to create a creative dynamic compositions.

Light control

Wireless lighting control system Casambi offers a big variety of possibilities for a user to interact with the lighting. The app for smartphones and tablets is the most elaborated user interface. Besides the app, traditional wall switches, push buttons, Casambi's own scene controllers and many other control points can be used.
