Move your table. Pixy will follow.

Pixy is never fixed. It is always flexible. Which makes it the perfect choice for restaurants and bars where moving tables is a daily routine. With a small carbon rod and a magnet, you can instantly move and redirect the light without using the ladder.

We think that Pixy is nicer when grouped. Combine more spots, colours, and heights to create your favourite composition over and over again.

Flexible magnetic system

Magnetic system gives you maximum flexibility. Snap the magnet to luminaire body and adjust it the way it suits you best.

Magnet is strong enough to hold 4x times the weight of the luminaire itself.

Stepless orientation

Magnet allows stepless orientation. This gives you freedom when moving and redirecting the light to the desired position. It comes very handy in situations, where moving furniture is a daily routine.

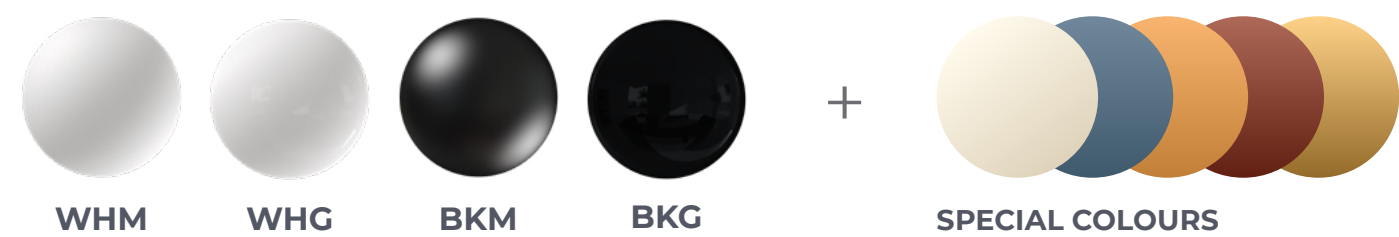

Create your favourite composition

We think that Pixy is nicer when grouped. Combine more spots, colours, and heights to create your favourite composition over and over again.

Choose your colour

Choose from a range of colours to make your Pixy either blend in or stand out.

* interior of the light is always black

Adjust suspension height

You can cut the suspension carbon rod stick by yourself. They are available in different lengths and can be cut with scissors. It is a very simple and straightforward process that helps you position the luminaire to the exact desired height.

*Maximal carbon rod length is 2 m.

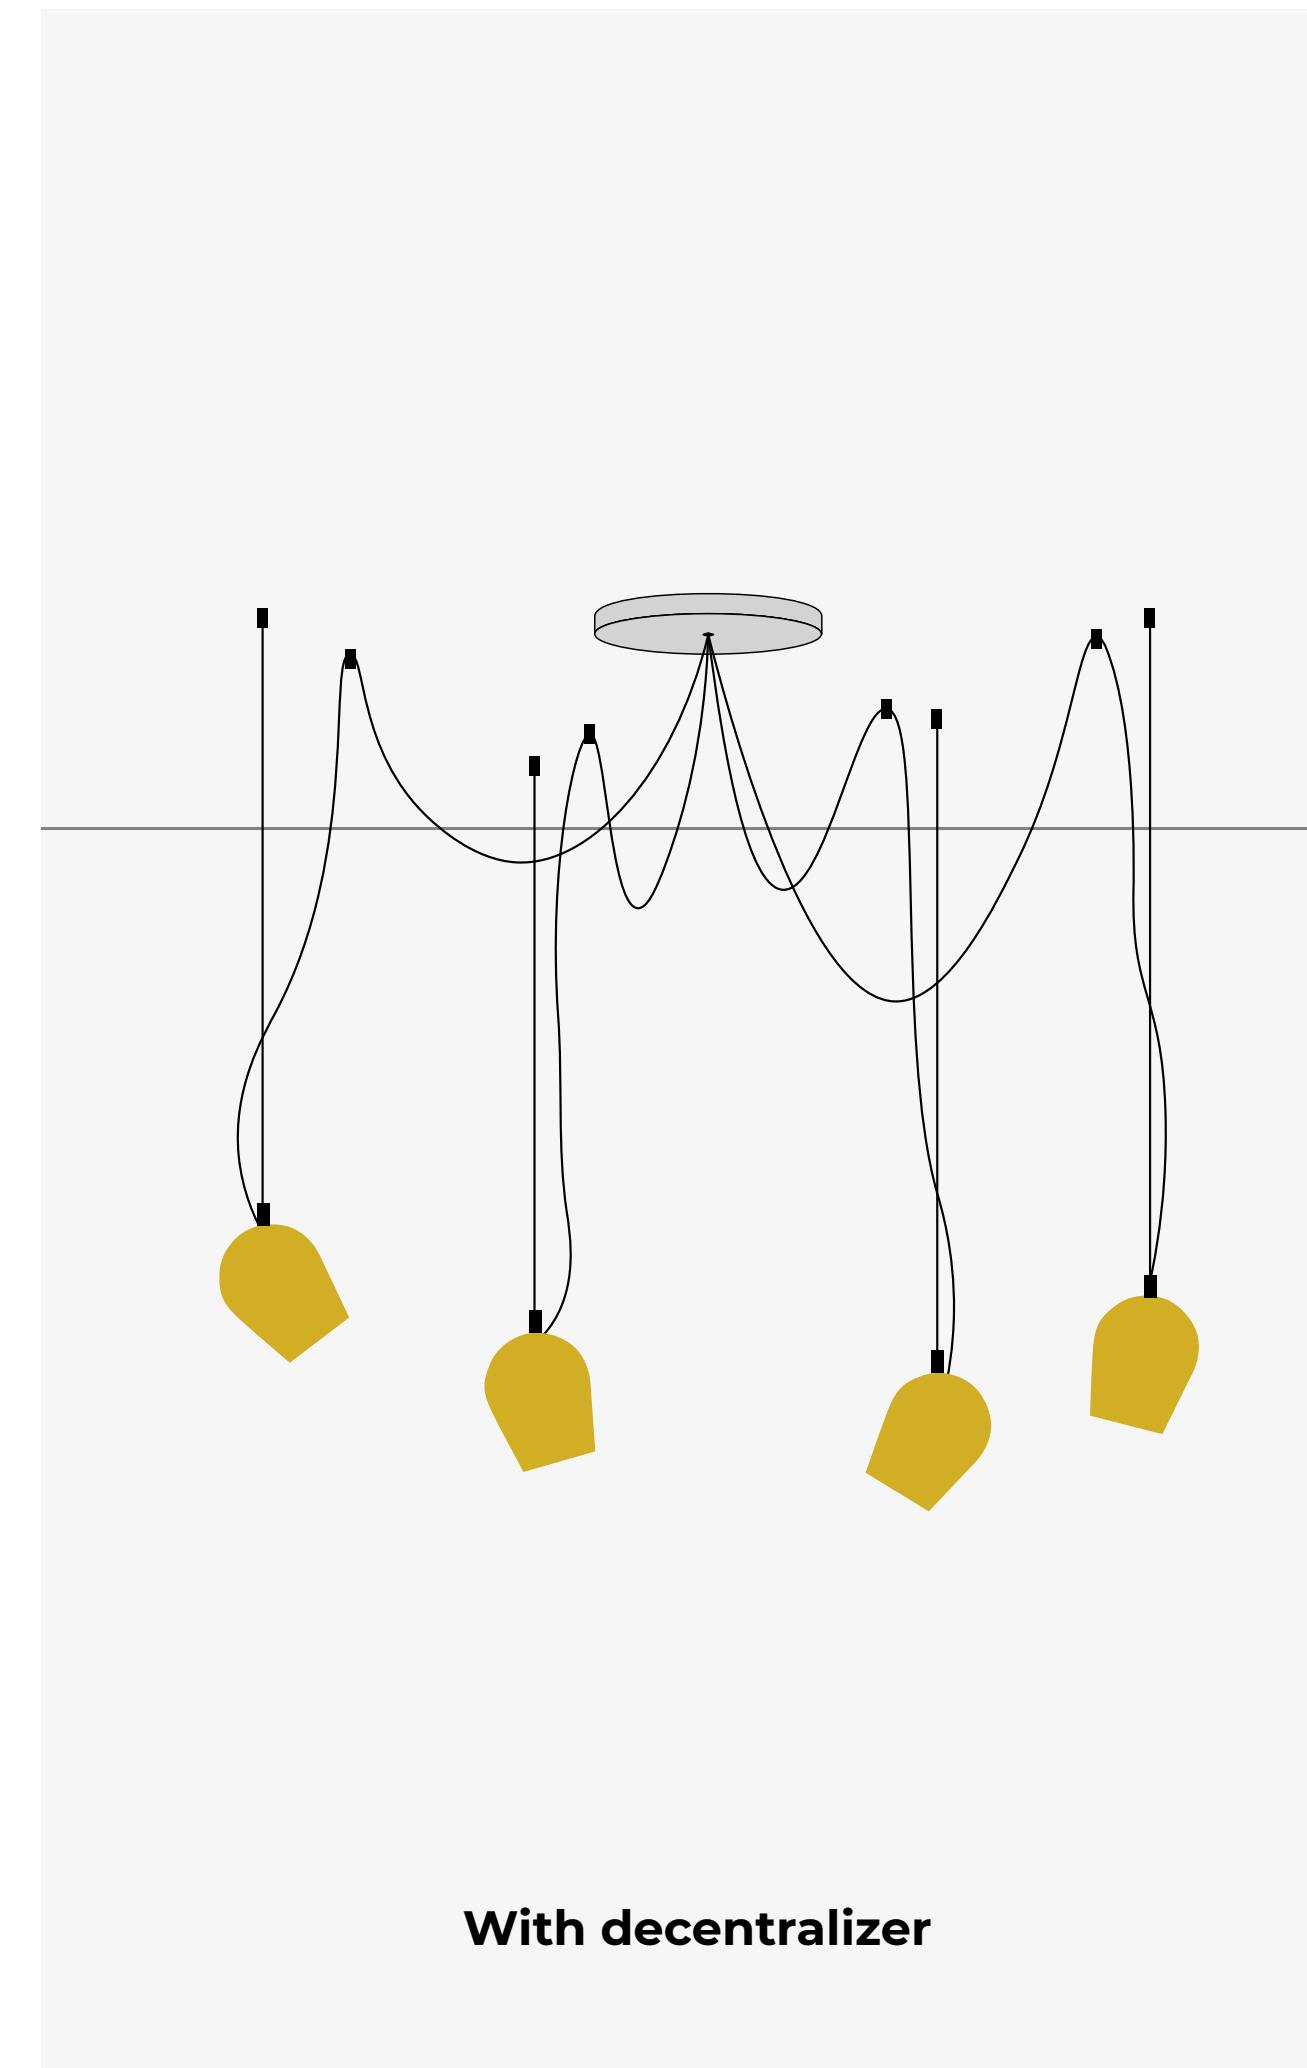

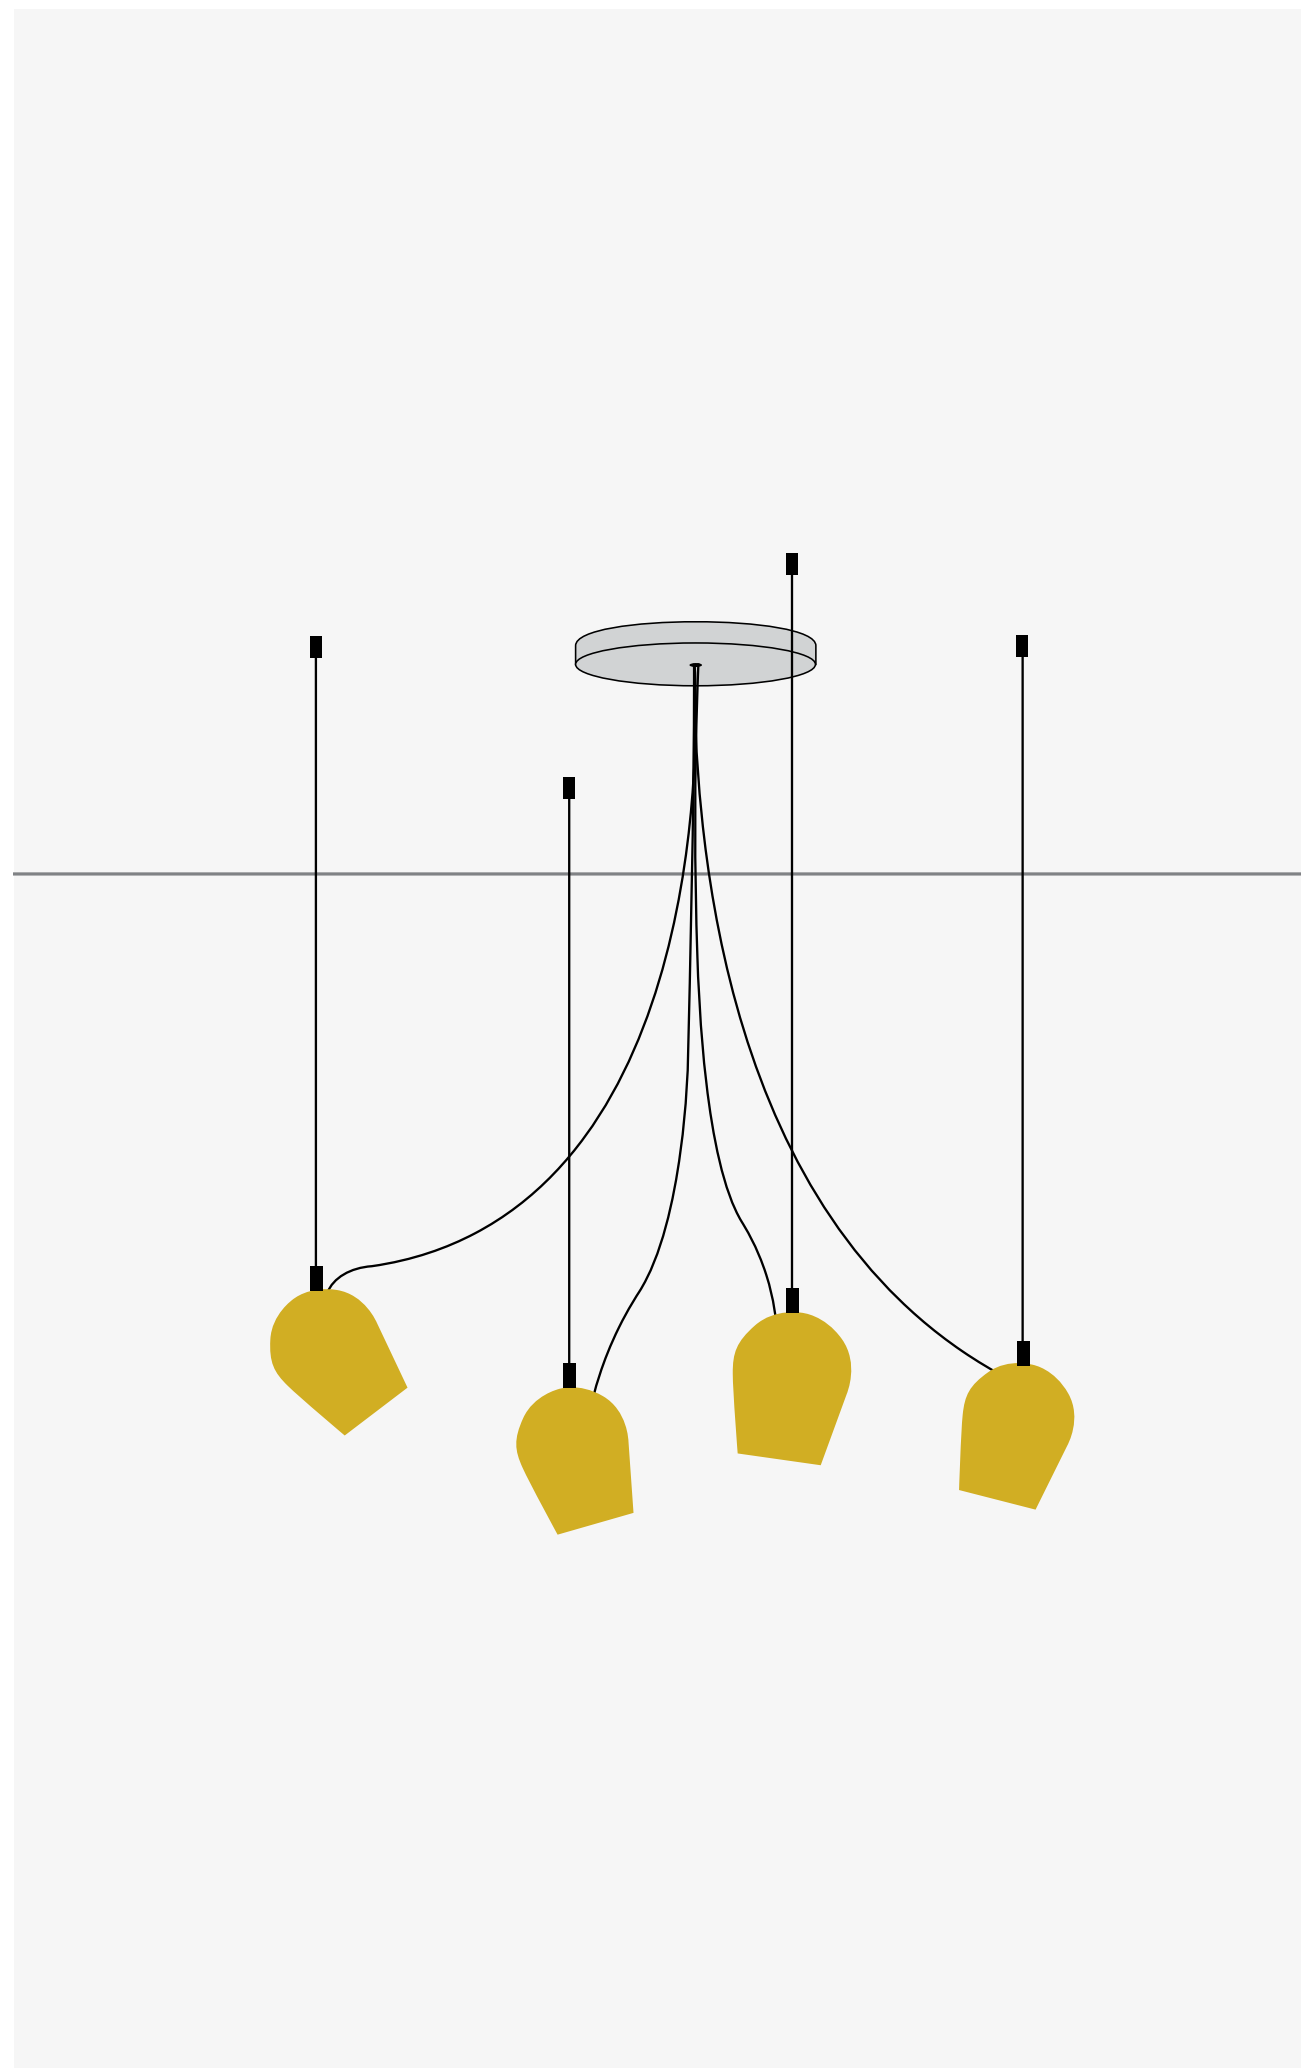

Cluster compositions

You can combine up to 7 products in all sorts of compositions. With the decentralization cable holder, cables will become part of the design, and remote power in positions will not be a problem anymore.

Decentralizer
(see accesories)

A beautiful solution for concrete ceilings

Clean, minimalistic and flexible. Pixy resonates with the flexible needs of the home by creating a cosy atmosphere.

With the integrated driver in the profile, 3 or 5 spots can be flexibly rotated and dimmed.

5 spots

3 spots

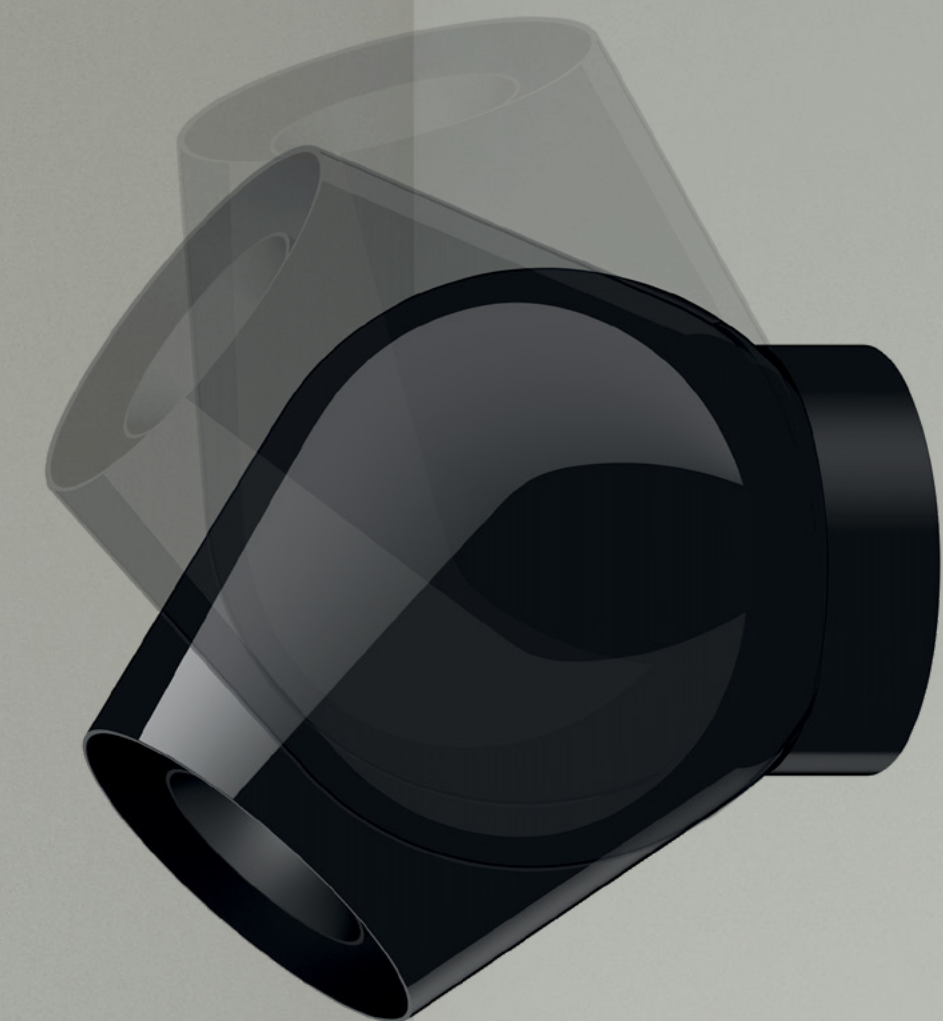

Rotate it on the ceiling and on the wall, too.

Left or right? Up or down? You can change the direction of light also with the ceiling and wall version. Just rotate it. Magnets will hold it in place.

and redirect

Light control

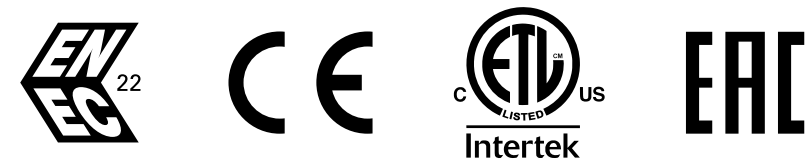

Wireless lighting control system Casambi offers a big variety of possibilities for a user to interact with the lighting. The app for smartphones and tablets is the most elaborated user interface. Besides the app, traditional wall switches, push buttons, Casambi's own scene controllers and many other control points can be used.

Made in Europe

Our products are carefully planned, manufactured and tested in order to ensure reliable operation throughout their life span, to limit the environmental impact as little as possible and to co-create pleasant living conditions. Quality is our highest priority and way of life.

High standards and reliable quality of our products were certified by numerous organisations.
