# Great design is transparent.

Forget about boring office lights that reveal everything within one look. Skyler is here to surprise! The first thing to wow is its see-through plate. With its black and white colour combination and thinness it's a true designer's piece, ages away from common office lighting solutions.

## LIGHT DISTRIBUTION

Direct / Indirect

# Slim and minimal, but powerful

Experience light in its thinnest pure form.  
Still, it's powerful and highly efficient.

# Single or dual colour frame

Of course you can have it in one colour. But is the possibility to have a two-colour frame that makes the difference. It's far more sophisticated and aesthetic. Choose the combination of two that you prefer or of the two that simply fit best your interior.

# Light guide panel

Light guide panel provides uniform and homogenous light output; Indirectly in a batwing and de-glared downlight.

# Create scenes with indirect light

Get all you need in one luminaire; light guide panel for detailed tasks and meetings, indirect RGB or tunable white for special occasions or to light up the creativity.

# Suspension and ceiling cup

Y or straight suspension are available for Skyler. The driver can be positioned in the ceiling cup or remotely.

Great  
design is  
transparent

Slim,  
but powerful

# Light control

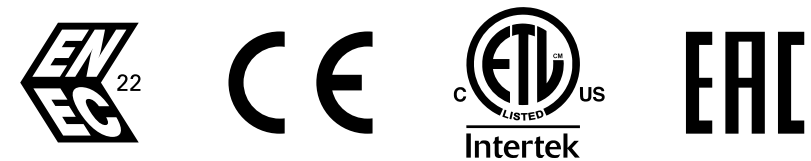

Wireless lighting control system Casambi offers a big variety of possibilities for a user to interact with the lighting. The app for smartphones and tablets is the most elaborated user interface. Besides the app, traditional wall switches, push buttons, Casambi's own scene controllers and many other control points can be used.

# Made in Europe

Our products are carefully planned, manufactured and tested in order to ensure reliable operation throughout their life span, to limit the environmental impact as little as possible and to co-create pleasant living conditions. Quality is our highest priority and way of life.

High standards and reliable quality of our products were certified by numerous organisations.
