If you're not into circles, move on.

Challenge your creativity by designing figures of repetition or an original combination of different shapes and sizes. It's an object that seeks attention without taking control over your space.

'Wave Round' may look all glitz and glam, but it also boasts with increased efficiency and reduced glare and is as such appropriate for your reception, building entrance or a shopping centre.

Product range

INSTALLATION:

Ceiling / Suspended

DIAMETER:

Ø 615 - 8000 mm

LUMINAIRE LUMINOUS FLUX

2800 - 126000 lm

LIGHT DISTRIBUTION:

Direct, Direct / Indirect

Round will never go out of style

Its circle shape catches the attention as a graphic element in the space, especially when grouped in various ways.

Be creative in compositions

Get inspired and draw your light as big and as bold as you want. Integrate it in the space and give your visitors a reason to look up. Wave Round is a perfect match to Wave, Tracker, Lona or Acousto.

Different spaces different sizes.

Wave Round is available in different sizes.

Those with smaller diameters are made from one piece, while the bigger ones are composed of multiple parts and can therefore easily embrace pillars or staircases.

Perfect joints, no light gaps

With an innovative twist and lock joint element the assembly between two modules is now quick and easy and the profiles are strongly connected with no risk of bending. The light has absolutely no possibilities to escape. And that's why we call it NLG - No Light Gap.

With an innovative twist and lock joint element the assembly between two modules is now quick and easy and the profiles are strongly connected with no risk of bending. The light has absolutely no possibilities to escape. And that's why we call it NLG - No Light Gap.

Wide colour range

Choose from wide selection of frame colours.
Additional colours are available on request.

Choose the right diffuser

Use satin opal polycarbonate diffuser (SOP) for general illumination or soft-light prismatic diffuser (DPR) for task illumination.

Circulating diffusers

Circling diffusers with no gaps allow
easy and fast service without taking them out.

Personalize your experience

Direct and indirect illumination for various lighting scenarios. Separate switching enables flexible illumination, as a direct and indirect component can be switched or dimmed separately.

Light control

Wireless lighting control system Casambi offers a big variety of possibilities for a user to interact with the lighting. The app for smartphones and tablets is the most elaborated user interface. Besides the app, traditional wall switches, push buttons, Casambi's own scene controllers and many other control points can be used.

Made in Europe

Our products are carefully planned, manufactured and tested in order to ensure reliable operation throughout their life span, to limit the environmental impact as little as possible and to co-create pleasant living conditions. Quality is our highest priority and way of life.

High standards and reliable quality of our products were certified by numerous organisations.
