# Small size, big effect

Even if it reminds you of a spot, its light is dispersed and offers high visual comfort. So it is perfect for apartments with concrete ceilings, private residences, lobbies, hallways and even conference rooms.

Nola easily catches the rhythm of the place. Of its form and content. Its small size and the possibility of dual colour offer you infinite possibilities of creating unique lighting patterns.

## It is not a spot?

Not at all, don't be confused. Even if Nola looks like a spot because of its size and shape, it is much more a very very elegant plafoniera with soft and dispersed light.

# Flat or regressed?

It is more or less only about looks and your personal preference. With black funnel you can decrease the glare level and give a twist to a standard white.

**Flat diffuser**

**Regressed diffuser**

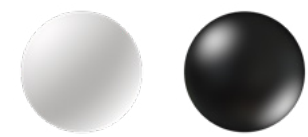

# Single or dual colour

Create your favourite colour combination with 4 housing colours and black or white funnel. Make your Nola either stand out or blend in.

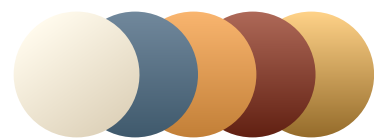

## STANDARD:

## INNER COLOUR:

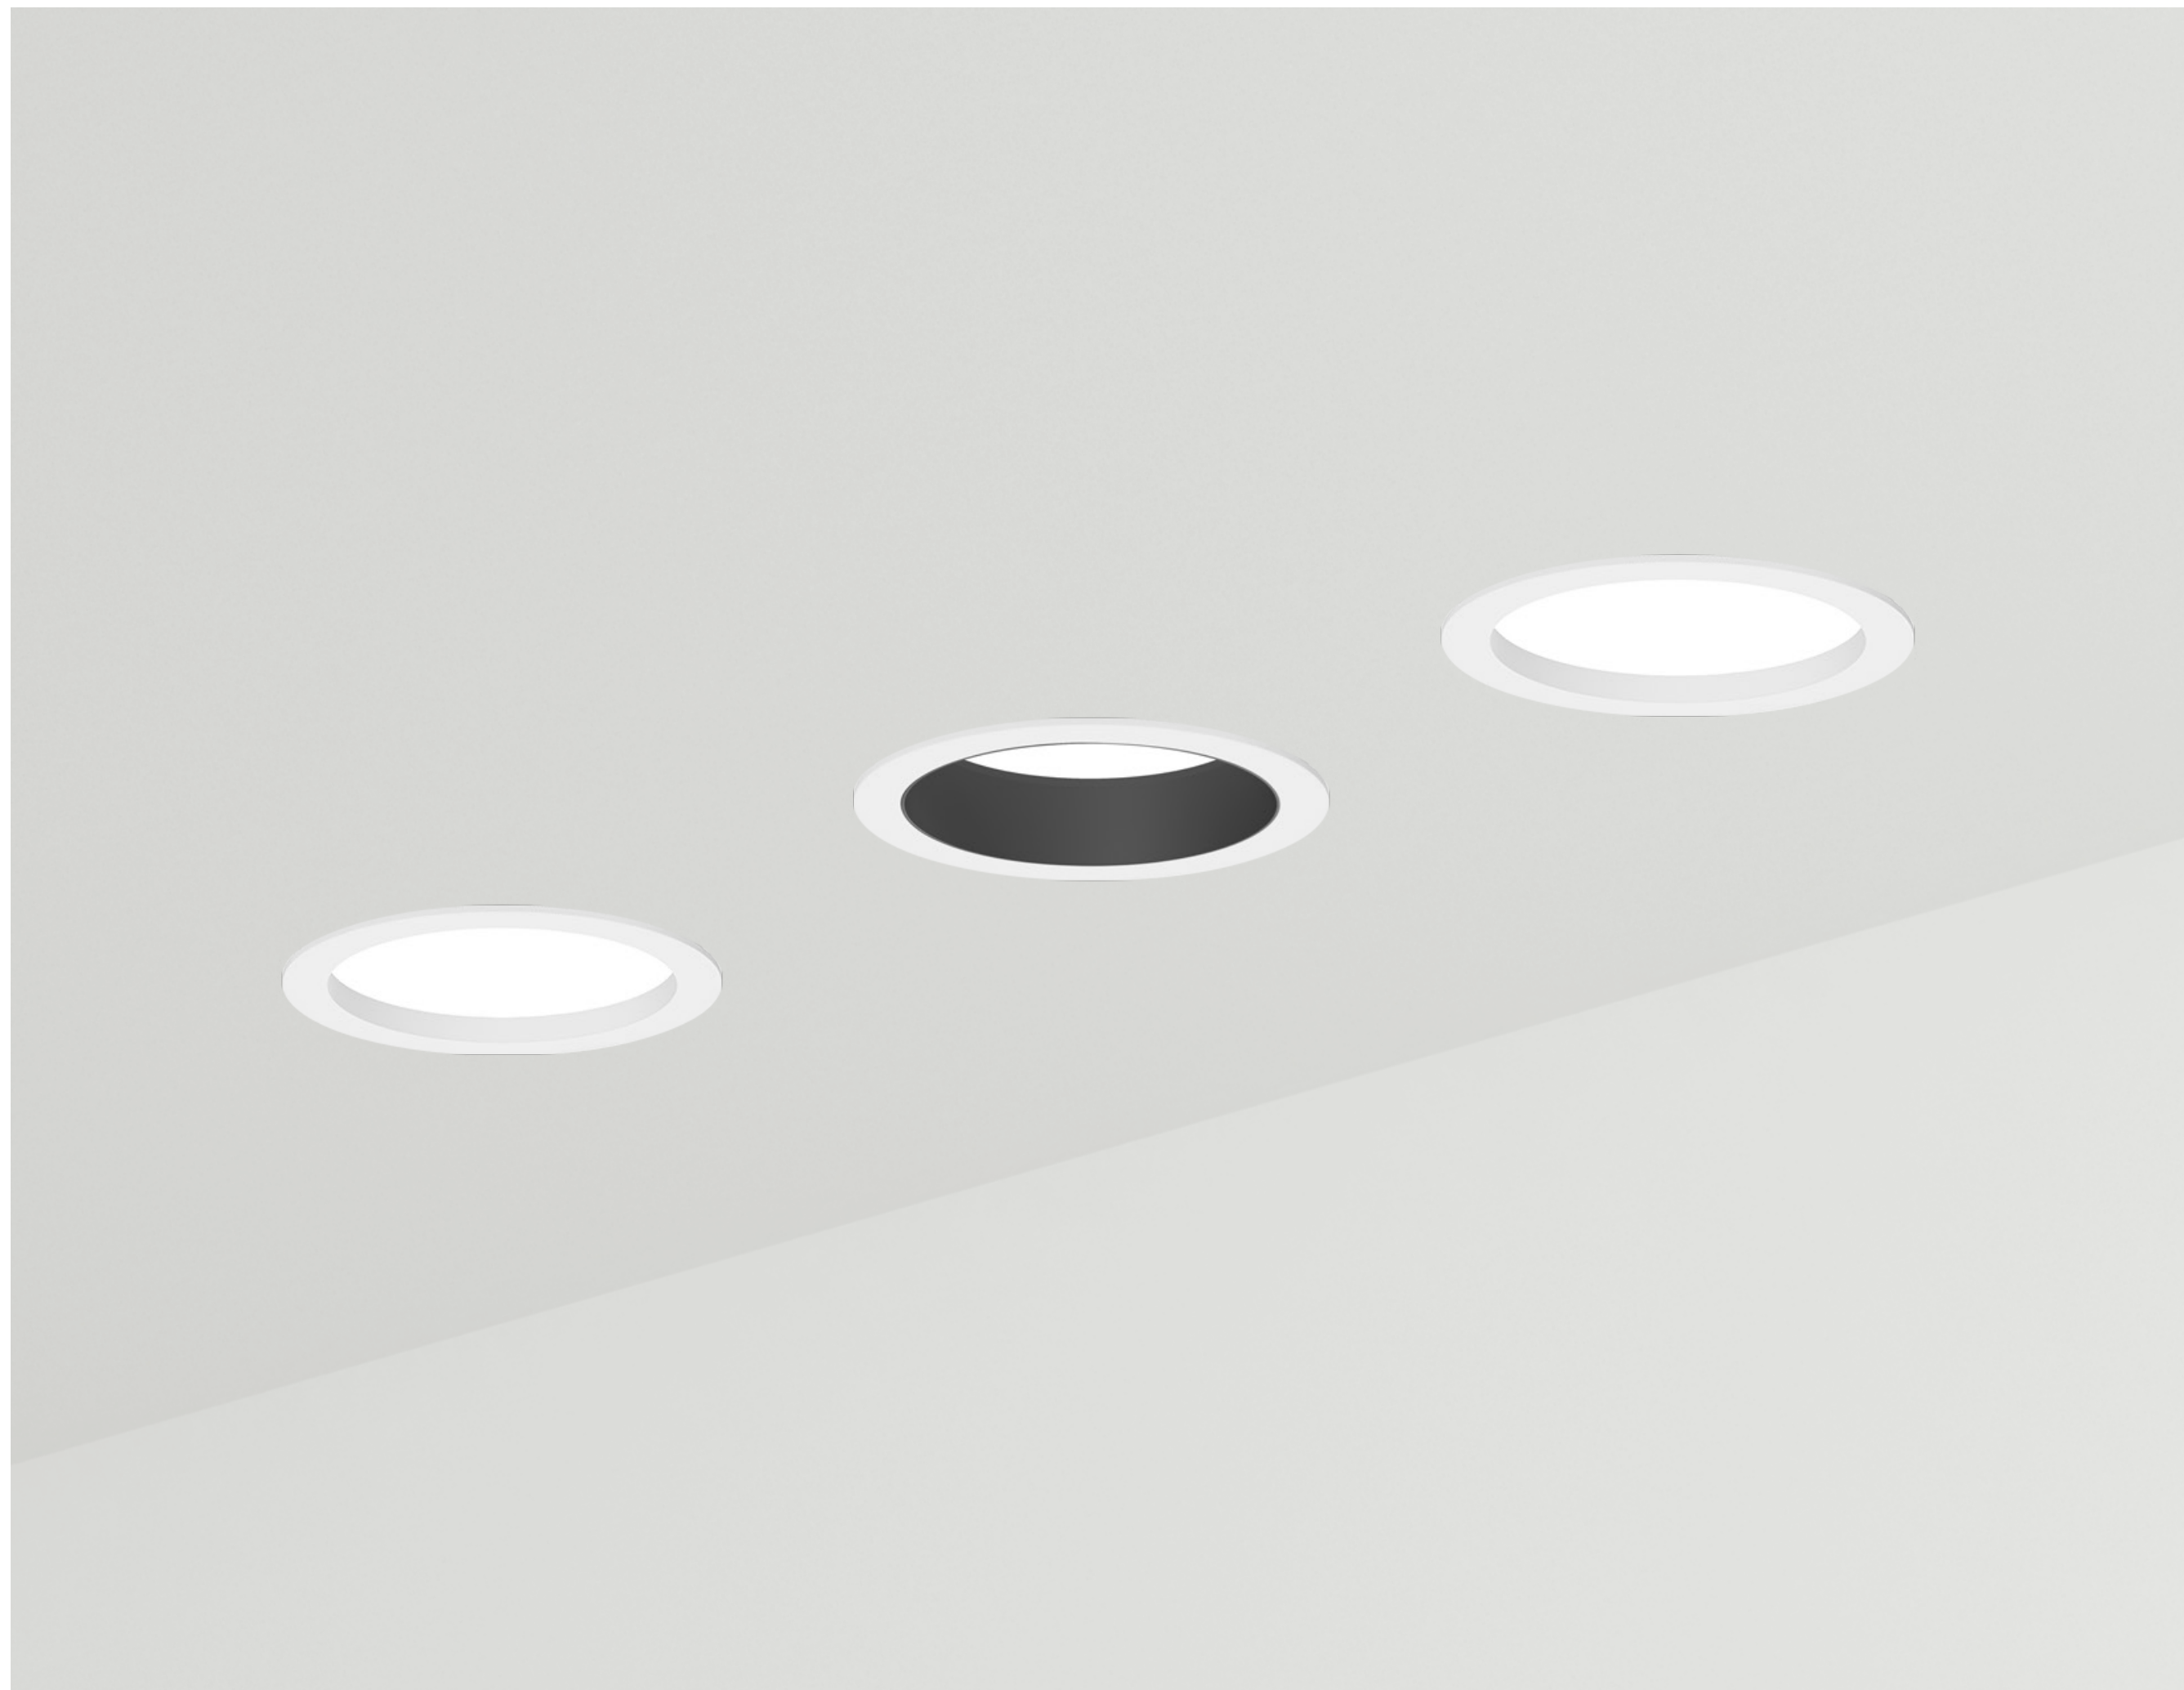

## SPECIAL COLOUR:

# Unexpected twist

Make a twist. Play by choosing different trim and funnel colours. Create colourful accents and let your ceiling be a canvas for unexpected combinations.

\*The dual colour option is only available on the recessed version.

# Models

One diameter, four different heights. Two with a remote driver, two with integrated, for all ceiling types. Finally we have a sweet elegant product also for concrete ceilings.

# Light control

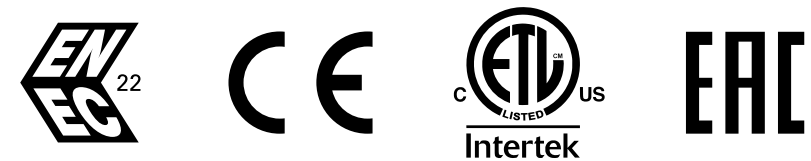

Wireless lighting control system Casambi offers a big variety of possibilities for a user to interact with the lighting. The app for smartphones and tablets is the most elaborated user interface. Besides the app, traditional wall switches, push buttons, Casambi's own scene controllers and many other control points can be used.

# Made in Europe

Our products are carefully planned, manufactured and tested in order to ensure reliable operation throughout their life span, to limit the environmental impact as little as possible and to co-create pleasant living conditions. Quality is our highest priority and way of life.

High standards and reliable quality of our products were certified by numerous organisations.
