# It will make you look up

With Hexagon, the magic starts by using basic shapes and joining them together into a net-like composition that works best as a secondary ceiling. It's the perfect pick for all those projects that are more than functional and attract attention with its distinct look.

But not only that... Hexagon is a luminaire that offers far more! It does not only guarantee high-quality general illumination but also gives you creative space to make it as big and as bold as you want.

# Product Range

---

**LIGHT OUTPUT:**

3300 - 16300 lm/m,  
980 - 5000 lm/m

# Suspension points

Hexagon is suspended on it's joints, so the weight of the luminaire is evenly distributed

The beauty  
of infinite  
variations

One of nature's  
favourite forms

# Light control

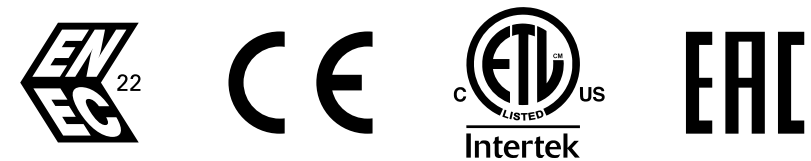

Wireless lighting control system Casambi offers a big variety of possibilities for a user to interact with the lighting. The app for smartphones and tablets is the most elaborated user interface. Besides the app, traditional wall switches, push buttons, Casambi's own scene controllers and many other control points can be used.

# Made in Europe

Our products are carefully planned, manufactured and tested in order to ensure reliable operation throughout their life span, to limit the environmental impact as little as possible and to co-create pleasant living conditions. Quality is our highest priority and way of life.

High standards and reliable quality of our products were certified by numerous organisations.
